

4-Point A-Plan Outlined by Dulles

Radiation From Red H-Bomb May Contaminate Canada, U.S.

Site of Bomb Test?

Wrangel Island, reported site of Russian H-bomb test, is shown (arrow) on map. Close to the Yukon and Alaska, the island is roughly 2,000 air miles from Vancouver Island. Contamination was claimed to have been detected as far away as 1,800 miles from U.S. tests at Bikini.

ABOARD 'LABRADOR'

Canadian Scientists To Check Radiation

OTTAWA (CP)—Canadian scientists aboard the navy patrol vessel Labrador may measure the intensity of radiation from a reported Russian nuclear test in the Bering strait area.

Officials here said the Labrador, now in the vicinity of Bering strait between Alaska and Siberia, has the necessary equipment to determine any sudden increase in radiation.

The 6,500-ton ship, on her maiden cruise from Halifax, is steaming for Esquimalt, B.C., after navigating the Northwest Passage.

\$10 MILLION DAMAGE

4 Die, 23 Hurt In Prison Riot

JEFFERSON CITY, Mo. (UP)—State troopers and police officers massed in battle formation today to put down a night-long prisoner fire-riot at the state penitentiary.

Four convicts were dead, two of them killed by the rioters. Twenty-three were wounded, two critically. Three guards, including one who was held all night as a hostage, were injured and one was stricken with a heart attack.

Eight buildings were burned. Damage to prison property may reach \$10,000,000, officials said.

The end came when 80 state highway patrolmen raced into "B" and "C" hall and fired one shot from a riot gun. Within five minutes the first of the hold-out rioters appeared in the doorway, hands clasped behind his head.

They came out by twos and threes to squat in front of officers spaced across the quadrangle under the protection of machine gun emplacements manned by National Guardsmen.

The flames which had lighted the sky through the night had thinned to smoke curling from the skeleton of the prison school building at the backs of the submissive convicts.

7th Fleet Manoeuvres

TAIPEI, Formosa (Reuters)—The United States 7th Fleet, reinforced by units of the Pacific fleet, is winding up two weeks of air-sea manoeuvres in the Formosa straits, American military sources disclosed here today.

Radioactive Rain in Japan Believed From Wrangel Island

TOKYO (Reuters)—Radioactive ashes from a recent Soviet nuclear test in the area of Bering Strait might "strongly affect" northern Canada, Alaska and some parts of the United States, a Japanese weather expert said today.

AFTER 7 MONTHS

Japanese First Victim Of H-Bomb

TOKYO (AP)—A Japanese fisherman dusted by a radioactive ash from a United States H-bomb blast March 1 at Bikini died tonight in a hospital.

Aikichi Kuboyama, 40, radio operator on the fishing boat Lucky Dragon, is believed to be the world's first death resulting from a hydrogen bomb explosion.

The fisherman had been suffering from jaundice complications brought on by radiation from the Bikini bomb, Japanese doctors said.

His illness and death is a matter of great international significance for Japan. The country has been bitterly critical of the American tests, and is reported to have presented Washington with a bill for several million dollars.

Kuboyama was one of 23 fishermen aboard the Lucky Dragon, which was approximately 80 miles from Bikini when the test bomb was exploded.

The other fishermen also are in hospital, but appear to be recovering.

The United States has offered Japan \$1,000,000 in damages for the 23.

Red Plot Broken Up

TEHRAN, Iran (UP)—Police arrested 44 Communists in the "oil capital" of Abadan today, breaking up a reported Red plot to destroy the world's biggest oil refinery.

FAST TIME IN B.C. ENDS ON SUNDAY

Daylight saving time officially ends in British Columbia at one minute past midnight Saturday night.

All clocks in the province will be moved back one hour, with the exception of CPR timepieces, which have remained on standard time during the summer months.

There was some confusion whether the close of daylight saving comes at midnight or at 2 a.m., but the attorney-general's office rules 12:01 Sunday morning.

Scelba Faces New Crisis In Scandal

ROME, Italy (UP)—Italy's leftists today carried to the floor of parliament their attempt to overthrow the pro-American, anti-Red government of Premier Mario Scelba on charges it hushed up a sensational sex, drug and death scandal involving prominent persons.

Pro-Communists Socialists headed by Stalin "peace" prize winner Pietro Nenni, introduced in the senate a formal demand for a parliamentary investigation in the senate.

They demanded appointment of a parliamentary commission to inquire into the death of Roman party girl Wilma Montesi, which already has forced the resignation of Scelba's foreign minister, Amintore Piccioni, and has shaken the nation's police force.

Piccioni, whose son was arrested on manslaughter charges growing out of the pretty party girl's death, was reported by his doctors to have suffered a "nervous collapse" today.

ACROSS CANADA WITH MONSARRAT

MONTREAL'S DELIGHTS SEEM TO BE ENDLESS

(Tenth of a Series)

From Quebec to Montreal is about 170 miles. It's a pleasant drive, especially when the sun is shining; one never loses sight of the St. Lawrence River for more than a few minutes at a time, and the ships, big and small, swimming alongside the road are a constant reminder that this is one of the world's great waterways. There is a lot of traffic; there is a recurrent rash of cabins, motels, tourist courts, and places to eat-and-run; there are milling masses of children at every corner (this is the province of Quebec).

Then the traffic thickens and coagulates; the buildings grow taller and closer. The main road degenerates into a truly horrible stretch of corrugated paving that leads into Sherbrooke Street; and suddenly you are in the heart of Montreal.

From information pieced together here it became apparent that Kaye talked to Hewitt, intending to offer some fatherly advice concerning difficulties which might occur as a result of Hewitt's impending marriage to Miss Holtz.

It was suggested by one in close touch with the Shawinigan situation that Kaye's intention was not to discourage the two from marriage but to assist them in making a success of it.

Significant fact which came to light today was that during the course of the conversation Kaye suggested a mixed marriage in this part of the world would not be as readily accepted as in others, and offered to loan the Hewitts money if they felt they would find things easier in Jamaica.

Mrs. Hewitt, according to statements made by her in Kingston, Jamaica, interpreted this to mean she was not wanted at Shawinigan and that she had to leave.

BITBURG, Germany (AP)—shooting flames 1,000 feet into the air.

Bitburg is 75 miles west of Mainz, near the Luxembourg border.

The tank was reported still in flames 2½ hours later, with both German firemen and U.S. servicemen battling desperately to keep the fire from spreading to another nearby tank.

FEDERAL BY-ELECTIONS WILL BE HELD NOV. 8

OTTAWA (CP)—The prime minister's office announced today that six federal by-elections will be held Monday, Nov. 8.

The by-elections will fill House of Commons vacancies in: York West, previously held by Rodney Adamson, Progressive Conservative, killed in an air crash at Moose Jaw April 18.

Toronto Trinity, formerly held by Lionel Conacher, Liberal, who died at a Commons softball game May 26.

Stormont, previously held by Transport Minister Chevrier, who now is Canadian president of the St. Lawrence seaway authority.

St. Lawrence-St. George, formerly held by Defense Minister Claxton, who retired to become Canadian general manager of the Metropolitan Life Insurance Company.

Montreal-St. Antoine-Westmont, formerly held by Finance Minister Abbott, now a member of the Supreme Court.

Selkirk, formerly held by Robert J. Wood, who died of a heart attack in Winnipeg Aug. 8.

Shawinigan School 'Unauthorized'?

Government Has 'No Control' Department Spokesmen Indicate

B.C. government has "no control" over private schools, such as the exclusive Shawinigan Lake institution from which Dorothy Holtz Hewitt claims she was banned because of the color of her skin.

High education department officials today told the Times they are "not even sure where these schools get their authority to operate."

Because of the complete autonomy of private schools, the B.C. government has made no public statement on the Shawinigan case. But officials at all levels of government privately condemn racial discrimination, either inside or outside of school operations.

Rising public condemnation of the banishment of Science Master John M. Hewitt's bride of four days sparked the Times' queries to Education Minister Williston's aides. The answers:

NO CONTROL

B.C. government isn't likely to be involved in the "inter-Commonwealth incident" or the Jamaica Legislature's protest to Canadian government over the insult to the beautiful Jamaican, one of whose grand-parents was colored.

B.C.'s education department has "no control whatsoever over private schools."

Top officials admit they don't know "where such schools get their authority to operate."

The schools are not inspected by government school inspectors.

No control is exercised over curricula, teaching standards, teachers, or educational requirements. "But the schools usually follow the B.C. curriculum," since pupils must pass government examinations to obtain matriculation certificates for entry into university.

Many teachers in private schools are unqualified, by department of education standards, and "could not obtain B.C. teaching certificates, through lack of educational requirement."

"At the same time, some private schools employ M.A.'s from ranking British universities like Oxford and Cambridge, who cannot teach in B.C. public schools without getting a certificate."

Standards of instruction in many private schools are "below those of public schools... they go in more for sports—boating and other athletics—that public schools haven't time for."

STILL SILENT

While officials of Shawinigan Lake School today continued their policy of refusing to discuss the now-famous "Hewitt affair," there was stronger indication the incident was touched off by a conversation between the school's headmaster, G. P. Kaye, and science teacher Hewitt.

From information pieced together here it became apparent that Kaye talked to Hewitt, intending to offer some fatherly advice concerning difficulties which might occur as a result of Hewitt's impending marriage to Miss Holtz.

It was suggested by one in close touch with the Shawinigan situation that Kaye's intention was not to discourage the two from marriage but to assist them in making a success of it.

Significant fact which came to light today was that during the course of the conversation Kaye suggested a mixed marriage in this part of the world would not be as readily accepted as in others, and offered to loan the Hewitts money if they felt they would find things easier in Jamaica.

Mrs. Hewitt, according to statements made by her in Kingston, Jamaica, interpreted this to mean she was not wanted at Shawinigan and that she had to leave.

BITBURG, Germany (AP)—shooting flames 1,000 feet into the air.

Bitburg is 75 miles west of Mainz, near the Luxembourg border.

The tank was reported still in flames 2½ hours later, with both German firemen and U.S. servicemen battling desperately to keep the fire from spreading to another nearby tank.

- 1 New A-Agency
- 2 World Conference
- 3 Reactor School
- 4 Medical Parley

U.S. Secretary of State Spells Out Eisenhower 'Atoms for Peace' Plan

UNITED NATIONS, N.Y. (AP)—U.S. State Secretary Dulles today laid before the UN General Assembly a four-point plan to speed the use of atomic energy for peaceful purposes.

The plan called for creation of a new international agency, including members from all parts of the world, to explore and develop atomic energy for peaceful uses.

It also proposed the calling of a world scientific conference to meet in the spring of 1955 under UN auspices to explore the whole subject of atomic development for non-war purposes.

At the same time Dulles announced that the United States will open early next year a reactor training school where students from abroad may learn the working principles of atomic energy with special regard for peaceful uses.

In his fourth point, Dulles said the United States will invite a substantial number of medical and surgical experts from abroad to participate in the work of U.S. cancer hospitals in which atomic energy techniques are being used.

Dulles spoke in the opening round of general debate before the UN General Assembly. He announced that the United States will submit a new item to the assembly's agenda to cover the plan he had outlined.

He still expressed regret that Soviet Russia had declined all U.S. efforts to obtain East-West co-operation in the atomic pooling idea, but he said the way was open for the Russians to come into the plan at any time.

"I would like to make perfectly clear," Dulles said, "that our planning excludes no nation from participating in this great venture."

"As our proposals take shape, all nations interested in participating and willing to take on the responsibilities of membership will be welcome to join with us in planning an execution of this program."

"Even though much is denied us by Soviet negation, nevertheless much remains that can be done. There is denied the immense relaxation of tension which might have occurred had the Soviet Union been willing to begin to co-operate with other nations in relation to what offers so much to fear and so much to hope."

"Nevertheless, there is much to be accomplished in the way of economic and humanitarian gains. There is no miracle to be wrought overnight. But a program can be made and vitalized to assure that atomic energy can bring to millions a better way of life. To achieve that result is our firm resolve."

Pearson was the first speaker in the assembly's annual general, or policy, debate in which foreign ministers and top diplomats expound their countries' aims in foreign relations.

Dulles, in addition to dealing with the president's proposal for peaceful use of atomic energy, was expected to touch every major aspect of United States foreign policy in a 30-minute speech.

The Canadian foreign minister recalled that Mr. Eisenhower made his proposal for an international atomic energy agency in a speech to the assembly last December.

"The Canadian government has observed with very great regret the discouraging refusal of the Soviet Union to consider the U.S. proposals except on condition which have been already shown to be unacceptable to the great majority of the members of the UN," Pearson said.

"... proposals which are as important as these to all the countries of the world should be developed, in President Eisenhower's words, 'under the aegis of the UN.' This is, of course, implicit in the charter subscribed to by the members of the UN at San Francisco in 1945."

"This is certainly one case in which we should not bypass the UN... even in the absence of Soviet participation..."

"Canada is in a position to make a useful contribution to the work of an international atomic energy agency and will be glad to do so," Pearson said.

Pearson cautioned that benefits from peaceful uses of atomic energy "will accrue only gradually," but expressed Canada's confidence that establishment of an international atomic energy agency will prove to be an important step in the liberation of atomic energy from its military bonds."

The Canadian minister warned that if the UN is by-passed too often, "it will fall into disuse and soon into disrepair and neglect and ultimately into uselessness." But he conceded that "to insist on discussing the same question seven times in seven years does not necessarily bring us seven times nearer its solution."

"There is a danger," he said, "in using this assembly and its agenda year after year to apply pressures, without regard to circumstances, which later produces equally unconstructive items on our agenda designed to apply counterpressures with equally negative results."

Play or Else—Rocks Told

By BILL WALKER
Times Sports Editor

The hodge-podge that is this year's Mann Cup Dominion lacrosse championship goes again tonight at Peterborough's Miller Bowl.

Victoria Shamrocks, their ultimatum of Wednesday scorned by Canadian Lacrosse Association officials, will meet Peterborough Trailermen in the fourth game of the best-of-seven series.

The CLA neatly mouse-trapped the Shamrock demand that all remaining games be played in Peterborough's Civic Arena, under threat of returning home unless their wishes were complied with, by threatening the Rocks in return.

In brief, CLA officials indicated in a directive issued today that team suspension would follow any game forfeiture and that return transportation home would be withheld. In addition it was pointed out that the Shamrocks faced forfeiture of their \$1,000 bond.

The only other matter definite at the moment is that all succeeding games after tonight's contest will be played at Peterborough's Civic Arena.

Peterborough leads the series two games to one. Weather conditions at Peterborough today are described as "sunny."

Details of the directive given Shamrock club officials will be found on page 12.

Chou Wants Parley

HONG KONG (Reuters)—Chou En-lai, the Chinese Communist prime minister, called today for another conference on the "Geneva pattern" to try to settle the question of Korea, Peiping radio said.

Mad Race for Sales By Auto Builders Squeezes Dealers

Gear Output to Profitable Sales Volume FADC Ex-President Urges Manufacturers

Car manufacturers were warned Wednesday they must gear future production to the volume of cars which can be sold profitably by dealers.

JUST for the RECORD

CAPACITY: In San Francisco O. W. Fullerup of Berkeley has been named assistant to the president of the wine institute.

TRIMMED: In Columbus, O., barber Jack Powell, a Cleveland Indian fan, takes a "trimming" whenever his favorite team makes a homer in an afternoon game.

Powell agreed early in the season to give a free haircut to anyone in his barber chair when an Indian clouted a four-bagger.

So far this season the Indians have cost him \$40 in haircuts.

SANTA: Radio Moscow reported today that Russian scientists have installed a microphone at the North Pole. The broadcast did not say who would be broadcasting over it.

SIMPLE: In Oklahoma City, Okla., the Court of Appeals laid down new rules yesterday for sheriffs searching for illegal whisky. The court ruled they did not need a search warrant if they spotted a box labeled "whisky," provided the box had not been opened. On the other hand if the box had been opened and you could see the whisky inside, a search warrant was needed.

DENIED: In Fort Dodge, La., the National Labor Relations Board yesterday denied a request by management that janitors be barred from joining a union because of their ability to read.

Management argued that janitors "have the opportunity to read... confidential information that may be left on the desks of management representatives or in personnel files which may occasionally be left unlocked."

MONSARRAT

(Continued from Page 1)

the hard life of the sea. St. Andrew's stood for the forthright pioneering spark. Quebec enshrined a conflict of Canadian history. Montreal is the same kind of city. For me, as for many others, it stands for urban variety and elegance.

The delights of this town are endless; and no other town need be jealous of them, because Montreal (whether it knows it or not) belongs to all Canada.

To begin with, it is in the front rank as a world communications centre. From here, ships and planes fan out as if from a vast global spider's web. You can be in New York in two hours, in London or Paris in fifteen. You can go eastwards across the Atlantic, or westwards to the deep interior of Canada.

MORE THAN FIGURES

Then, Montreal has that heartening attribute, the atmosphere of a big city. "Population 1,400,000" is more than a row of figures; it means that a mass of people have chosen to live in one particular spot, and have made it their own. It means that there are lots of shops, lots of bars, lots of hotels, night-clubs, churches, police-stations; it means that if you grow hungry at ten o'clock at night, you can walk out and have a choice of half-a-dozen different restaurants, with a real variety of things to eat.

Montreal has a tough waterfront, some elegant shopping streets, odd things like delicatessen stores and small cinemas, book-shops, a financial district, and an excellent naval headquarters. You can wander downtown, and imagine that you are lost in an unfamiliar part of Paris. From a vantage point on Dominion Square, you can gaze at the largest office block in the British Commonwealth — an austere monument to commerce which takes you a very long way from Paris. You have a choice of seven newspapers. You can make friends with casual strangers, or get beaten up by experts. You can eat like a king — a rare, gourmet king.

It sounds like a city, it smells like one. One could be very lonely there — or very happy in isolation. One can draw pleasure even from the street names — Cote des Neiges, Cote de Liesse, Decarie, Place d'Armes, Beaver Hall Hill. It is the home of one of the principal exports of Canada — not wheat or canned salmon, or aluminum, but McGill men all over the world. South Africa has scores of them in her mining industry. But it's worth remembering that thousands of Englishmen first noticed McGill, nearly half a century ago, as a word in small print on a title-page — under the magic name Stephen Leacock.

Montreal has a distinguished mayor — M. Camille Houde — who perhaps sums the whole thing up. In fact he sums it up so well that one runs out of adjectives. Cosmopolitan, humorous, alive, urbane, intermittently controversial — perhaps this is a good time to run out.

I'm always sorry to leave Montreal. Only a blockhead could feel otherwise. It was so on this occasion. On the road to Ottawa, I stopped off at Dorval, where I kept a small sailing-boat, to take part in a Saturday afternoon race on Lake St. Louis. We came in seventh (out of nine starters), and ran on a rock on the way home. Perhaps to remind me of two things: that Montreal was the place to concentrate on — and that I was crossing Canada by car.

Friday: "Into the Capital."

QUEBEC (CP)—No major decisions on federal-provincial issues are expected to be taken by the Quebec government until the report of the Quebec royal commission on constitutional problems is published, sources close to the Quebec administration say.

Mining Seen Strangled by High Taxes

WINNIPEG (CP)—Dr. H. J. Fraser, vice-president of the Falconbridge Nickel Mines Ltd., told the annual conference of provincial ministers of mines Tuesday night that government taxation on profits was one of the main Canadian mining companies have lost incentive to wards further development.

He also said early-day prospectors were more interested in their work than ones of today.

He also said early-day prospectors were more interested in their work than ones of today.

In 1952 for every dollar received by shareholders of Canada's three largest mining companies, the government received \$2, Dr. Fraser said. Twenty-seven years ago this ratio was reversed.

Further development may not be as spectacular as it has been the last 30 years, because of this fact, he added.

"Present-day prospectors, who are mostly professional men and salaried by large companies, haven't the drive and personal incentive that sparked early prospectors."

OSHAWA, Ont. (CP)—Walter Reginald Geikie, 76, chairman of the board of the Pedlar People Limited, died today after a lengthy illness.

Press Scores Attlee Blast At Chiang

LONDON (UP)—Most British newspapers denounced former Labor Prime Minister Clement Attlee today for saying "The sooner we get rid of Chiang Kai-shek and his troops the better."

"Nothing could be better calculated to anger the American people," the Daily Mail said.

"Attlee has dropped a brick that might do as much damage as the hydrogen bomb," the Daily Sketch said.

"He could hardly have said more without actually inviting the Communists to attack," the Daily Telegraph said.

The Daily Herald, organ of Attlee's Labor Party, confined its comment to calling the statement which Attlee made Tuesday a "vigorous comment."

"What a splendid quotation for Peiping radio!"

"INCREDIBLE"

The Daily Sketch said Attlee's statement was "incredible."

"It is also discreditable," the Sketch said. "He has seen the lynch law in China. Does he want it in Formosa?"

"From the British point of view, does he not understand that the claim of the mainland Chinese to Formosa is infinitely weaker than their claim to Hong Kong? Is he preparing the way for the surrender of Hong Kong?"

The Daily Sketch said Attlee's statement was "incredible."

"It is also discreditable," the Sketch said. "He has seen the lynch law in China. Does he want it in Formosa?"

Frenetic Freshettes To Be Sad Sacks Friday

Victoria College freshmen are likely to act somewhat frenetic Friday at their annual initiation.

Instructions for initiation day dress were issued Wednesday by student union president Don Cox, whose intonations also included an order for froth to pull a tally-ho loaded with sophomores to the site of the freshmen's dance at Crystal Garden, Friday at 9 p.m.

The parade will pass along Douglas Street shortly before the dance begins, and citizens will have the opportunity to see soporific sophomores at their sleepiest.

All freshmen will have their thickly painted face and hair must be slicked down with a centre part. A single earring will hang from the left lobe.

All freshmen are warned that strict adherence to upperclassmen's rulings must be made. Spies will watch constantly for violations and offenders will face a kangaroo court at intermission time Friday night.

'Fire PUC' 400 Cry At Vancouver Meeting

Hundreds Attend Gathering to Protest Higher Bus Fares; Ask Delay in Hike

VANCOUVER (CP)—A protest meeting sponsored by the Senior Citizens' Association Wednesday night demanded the immediate dismissal of the Public Utilities Commission.

The meeting, attended by 100 persons, was called to protest the commission's action in increasing B.C. Electric Company bus fares in Vancouver by two cents.

Harry Rankin, president of the Grandview Ratepayers' Association, told the meeting that in all transit fare hearings the commission has always given the BCE "the benefit of the doubt" without regard for the public.

Mr. Rankin said the company's financial structure "must be sound when we know that its stock jumped from \$17 to \$25 a share in less than a year." Part of the increase, he said, came after the PUC granted the BCE's application for a two-cent boost.

Mr. Rankin said there was no comparable increase in BCE wages and added that if there was an increase, it went to the

FOOLISH FOOTGEAR

All freshettes will have their hair in pigtails, topped by froth hats and blue or gold ribbons, university colors. They will wear inverted sacks with holes cut for arms and head and reaching to within two inches of the knee.

Under that, each will wear a man's shirt and tie, with the tie draped outside the sack. Footgear will consist of a stocking held at the right knee with a blue or gold ribbon and a man's shoe, and on the other foot a man's sock with a woman's pump.

Aborigine mode of makeup will include a quarter-inch black line to divide the face from chin to forehead, the right side heavily caked with cosmetics and the other side scrubbed clean.

Male froth will be subject to similar indignity. Froth hats

will have veils covering the thickly painted face and hair must be slicked down with a centre part. A single earring will hang from the left lobe.

All freshmen are warned that strict adherence to upperclassmen's rulings must be made. Spies will watch constantly for violations and offenders will face a kangaroo court at intermission time Friday night.

Special Introductory Bargain Offer

5-piece place setting only \$1.50

with two "rose" tokens from Allsweet!

VALUED AT \$3.50 YOU SAVE \$2.00

Be a Santa Claus to your favourite worthy cause this Xmas. Save Allsweet cartoon cards and win big CASH prizes. For details write Allsweet's "Kris Kringle Fund," Swift Canadian Co., Limited, Toronto 9, Ontario.

NOW YOU CAN make your dream of owning lovely silverware come true—thanks to Allsweet. Beginning with this wonderful bargain offer you can collect a complete set of Rose Pattern silverplate, made and guaranteed by Wallace Brothers in A-1 Plus Quality silverplate, overlaid with extra silver where necessary. And you'll pay less than half what it would cost you if you could buy it in the stores.

To get your 5-piece setting, consisting of dessert knife, fork and spoon, salad fork and teaspoon—send your name and address, \$1.50, and two "rose" tokens from Allsweet Margarine to Swift's Place

Setting, Box 1588, Toronto, Ont. There are full details of how you can continue your collection of Rose Pattern silverware printed right on every Allsweet carton—every item available at prices that enable you to save over half the usual retail price.

Allsweet really does taste better!

We're quite content to let other people eat their words. All we say is "Taste Allsweet." You'll soon find the words to describe it—words like "delicate, natural flavour"—words that add up to the fact that Allsweet tastes better than any other margarine you've ever tried. Swift Canadian Co., Limited.

SWIFT—to serve your family better!

Clip this coupon for your place setting. Hurry! Offer is good for a limited time only!

SWIFT'S PLACE SETTING, BOX 1588, TORONTO, ONT.

Please send me.....5-piece place settings of Wallace Brothers A-1 plus Quality Rose Pattern Silverplate. I enclose \$1.50 and two "rose" tokens from Allsweet for each setting. (Allow three weeks for delivery.)

Canada Should Give More

CANADA WILL SHORTLY BE asked to provide more money for the Colombo Plan.

Since 1951 this nation has supplied \$101.6 million at a rate of \$25 million a year plus \$400,000 for technical assistance.

This is the financial picture applied to Canada of efforts to help the countries of South and Southeast Asia to help themselves to a better standard of living for their people and a higher production to maintain that standard.

In essence, the effort is one of the most altruistic in Canada's history. In terms of human values it completely justifies itself.

With the money and the technical help provided by Canada, and other more fortunate members of the Commonwealth, a magnificent job is being done to improve health, reduce the threat of starvation and foster better methods of production in under-developed lands in that part of Asia.

Under almost any circumstances, the plan would deserve support. With the world in its present state, the undertaking becomes even more important.

Nations of the west have been trying to speak to the lands of South and Southeast Asia in terms of democracy, seeking to implant in them an appreciation for the type of life we cherish. They have found, and are continuing to find, that to the masses of under-developed countries, words and concepts without tangible expression have little or no meaning. The man who is hungry, whose chief concern is enough to eat, has little time to devote to abstract ideals. His interest in staying alive is immediate and overwhelming.

If, through the Colombo Plan, these peoples can be taught to make their fields more productive, can be shown how to reap a richer harvest from their fisheries and can be assisted in developing their natural resources, they have something mate-

rial by which to judge the democracies.

They can then be expected to see promise of a more abundant life under systems of government which recognize them as individuals and respect their rights.

How better can the assisting nations of the Colombo Plan make friends at a time when they need friends? That, surely, is a matter of simple common sense.

In Ottawa during the next few days members of the plan's consultative committee on economic developments—members who are delegates from all countries involved in the arrangement—will discuss the progress that has been made on some of the major projects already undertaken. They will talk over the plans for the future. They will learn of hydro, irrigation, agricultural and industrial progress made by countries which have been assisted and will hear encouraging reports on health.

And they will be told, too, that considerably more money is required to carry on the work that has been started, to expand it, and to initiate new development. Canadians will be informed that their \$25 million a year assistance rate is not sufficient to meet the needs. They will be invited to give more.

The investment seems sound. The importance of the South and Southeast Asian countries in the world balance cannot be ignored. Within recent months the potential support of a large section of Indo-China has been lost to the west. That should emphasize the urgency of efforts to strengthen friends who still remain with us in other parts of the largest continent.

Humanitarian considerations may be enough to persuade Canadians to make a more generous contribution. But as conditions exist today, much more than humanitarian considerations must weight the scales in favor of an increased allocation from this country.

Repeating a Rejected Theme

THERE WAS A FAMILIAR, IF not too authentic, ring to Premier Bennett's remarks to the Victoria Social Credit Constituency Association Monday night. The Premier forecast a Social Credit government for Canada within the next three years.

A little more than a year ago he was making similar statements. Social Credit, he said at that time, would take over the federal field in two bites. The general election of August, 1953, was to be the first bite.

Unfortunately for his forecast, the results of that election reduced the "bite" to something less than a nibble. The party he represents sent only four members to Ottawa from B.C. and has no representation in eight of the ten provinces.

The voters had, by their ballots, instructed Mr. Bennett to attend to his provincial business. They had, in effect, reminded him that his victory in the British Columbia field was not an endorsement of Social Credit theory or policy so much as an expression of dissatisfaction with an unhappy state of affairs in provincial politics at the time.

The Premier apparently chooses to ignore the lesson of August, 1953, and to hope that public memory is short enough to have forgotten the rebuff administered to him at that time. His technique seems not to have varied. Prior to last year's general federal election Mr. Bennett sought to establish the thesis that he would capture B.C. as Mr. Manning had assumed control of Alberta and that the two provinces together would provide a source of strength from the prosperous west to step up Social Credit's eastward march.

At this week's meeting the same thinking was revealed in the Premier's statement: "If we do what is

right in B.C. and Alberta, all Canada will open out to us."

And how does he seek to "do what is right in B.C. and Alberta?" Perhaps by saying that "we don't like funny money" a few days after his colleague, Health Minister Eric Martin has emphasized the necessity of Social Credit assuming power at Ottawa to "fulfill its monetary concept"—a concept regarded by economists as the funny money theory.

While these apparent contradictions issue from the lips of the Premier and one of his ministers, another interesting resolution springs from the Victoria Social Credit Constituency Association. It seeks action by the Federal Government to restrict immigration to "British subjects" on the grounds such restrictions are required to relieve growing unemployment.

Desirable as British immigrants are—sharing a common heritage with Canadians and speaking the same tongue—the resolution cannot fail to remind the public of certain racist statements by some Social Credit national leaders—statements which Mr. M. J. Coldwell has spread on the record at Ottawa.

British Columbians have already rendered one verdict on the Social Credit appeal for national votes. Repetition of that appeal at this time seems somewhat premature if it is election propaganda. Could it have been directed at those Conservatives in this province who are splitting off from their old party? Is Mr. Bennett, with the astuteness none denies him, seeking to reap his own political harvest from his former party's present chaos? Is it sheer coincidence that he makes such a speech on the eve of the arrival in Victoria of Mr. George Hees, national president of the Conservative Party?

Longer Lives for All

EACH DECADE MARKS FURTHER victories in the war of science against disease. They are impressive in the humanitarian sense—in terms of human happiness and comfort. But they are reflected startlingly in statistics as well.

Figures recently published by the Dominion Bureau of Statistics show that within the last 20 years alone the life expectancy of a new-born baby has increased astonishingly. Girl babies born today can expect to live eight and three-quarter years longer than those born in 1931. Male babies, on the average, can look forward to six and one-third years more of life.

With the first critical months of life successfully passed, female babies on their first birthday today can reasonably expect another 72.3 years; boy toddlers another 68.3 years. These expectations no doubt will be bettered through the individual's life, as further medical advances increase the chances of extending "old age"

far beyond what we have come to recognize as normal limits.

The great ages reached by various persons a few generations ago are often brought out in arguments to attempt to prove that our forebears were more hardy and longer-lived than are the people of today. But despite the longevity of a few well-known cases, a walk through any old cemetery provides the answer. The many grave stones of little babies, of men and women taken away in what we now know as the prime of life, tell their own story. They far outnumber the oldsters, as they outnumber the same age groups in the cemeteries of today.

By our onslaughts against infectious diseases we have succeeded in holding back for a longer period the final curtain on life's stage. Whether new statistics must be compiled in the light of the atomic age will depend on mankind itself. If the atom replaces the germ as a lethal particle, little will have been gained.

European Dog Show

Some Aren't So Lucky

By PETE LOUDON

Most youngsters who come from broken homes, the courts, or ailing parents to the shelter of Victoria's Family and Children Service, are easily placed by adoption or with foster parents. Some aren't so lucky. Misfits, they bounce from one home to another. Social workers know that if these youngsters can be placed in the right type of specialized care, the scars of their past experience will heal. Previous chapters of the story of Victoria's unwanted children showed the need for a group receiving home and a group observation home. Neither of these is suitable for every case.

FAMILY and Children's Service can't handle children like chattels. To place a child in an adoptive or foster home, the social workers can't and won't offer bargains or any enticement when a youngster falls into a difficult category.

They have to find new parents for maladjusted children as well as for their more normal charges. But in some cases it's a heart-breaking search. How do you find people with the biggest hearts, the deepest understanding?

COMPLETE DEPENDENCE

Freckled-faced Clive, a lovable boy from an Island farm community, has everything one would want in a son. Unfortunately, he also has cerebral palsy. He has lack of muscular control, staggering gait and complete dependence on others. Already Clive has known two sets of foster parents.

John, 11, is a quiet youngster, too quiet perhaps. Slow, mentally retarded, he would rather sit all day in the house and string buttons than rough-house with other youngsters. "They push me around," he says.

Grace, at 13, is so confused as to normal adult behavior that she trusts no one. She runs away for days at a time, skips school and drinks.

Ten-year-old Ronnie has temper tantrums and still wets the bed. The answer for Clive and the class he represents, each of the examples has several real-life counterparts in the files of F and CS office at Spencer House, is a family home with understanding parents. The proper home would be paid a special subsidy over and beyond allowances for board, clothing, school books, pocket money.

FINEST TREATMENT

The boy Clive might never be cured; some of the other physically ailing boys and girls can be, placed in the right home. The finest medical treatment will be given each one of them. Former foster

homes have rejected Clive because his care became too much of a chore. The caseworkers feel there is a proper family for Clive somewhere in Victoria.

John, the "slow-to-catch-on" boy, also needs a private family home. His divorced father is a member of Alcoholics Anonymous whose cure depends a great deal on the help he gets with John.

His Dad pays toward his care. Help now will lead to eventual re-establishment of John with his father. Once again, doctors have hopes of treating John—if they can find a home which will keep him between visits.

Ronnie needs a home where kindness will draw him out. So far caseworkers have found only one chink in the armor he wears against the adult world. Ronnie would like to raise rabbits.

SORRY HISTORY

His mother left his father when the boy was two. His Dad's only method of teaching was with a stick. A stepmother brought a new baby into the family and Ronnie became the odd wheel. His "folks" were glad to turn him over to the social workers because, "he can't accept discipline . . . and he wets the bed."

He has been strapped at school. He ran away from two foster homes. Ronnie hates grown-ups.

Grace came to the Family and Children Service when neighbors complained that she was living with a mother who was engaged in the oldest profession. Grace ran loose on the street, had numerous police warnings.

Three different men have been pointed out to her as her father. She'd like to have some parents. She's not a good scholar, but is classed as low-normal. Her only contact with grown-ups has been the friends of her mother and police and court officials.

HOME NEEDED

She needs disciplined hours, firm, kind attention and association with other girls. A group home which could care for five or six such cases may save Grace from juvenile court.

For such a home, subsidy would be paid, as in the other group homes mentioned.

Clive, John, Ronnie, Grace—they all live with hope, clutching at the straw that somewhere in Victoria there is a home just right for them.

They don't doubt a moment that Family and Children Service will let them down either when it comes to paying the bills. Which, of course, depends on support for the Community Chest, next month.

DENNIS THE MENACE

From Our Files

Sept. 23, 1894—J. C. Voss, formerly of the Empire Restaurant, and J. B. Perry, the hardware merchant, have leased the Queen's Hotel (Captain Voss later sailed the canoe Tilikum from here to London).

Sept. 23, 1914—London—The fall of Jaroslavl, in Galicia, to the Russians, is regarded here as the most decisive stroke by the Allies in 24 hours. It may have a greater effect than events in France.

Sept. 23, 1934—Showing at the Capitol this week is "The Last Gentleman." At New Playhouse, Warner Baxter and Shirley Temple in "Stand Up and Cheer." At the Empire "White Cargo" is the bill.

As Our Readers See It

RUTH ENKE COLUMN

May I say that I, too, very much enjoy Mrs. Enke's column. In this world gone mad her thoughts passed on to us are sane, sound and logical, reminding us of the real and everlasting values of life which are so often forgotten in the 20th century struggle for existence. DOROTHY SPURR.

305 Windemere Place.

INVITING INJURY

Near Royal Oak on the Patricia Bay Highway about 8 p.m. Sunday evening I passed a man on a bicycle coming towards Victoria on my side. He wore black clothes and had neither head or tail light on his machine, so I never saw him. The person sitting beside me remarked: "That man on the bicycle is looking for trouble." "What man?" I asked.

I hope he reads this and puts some Scotch reflector tape of his bicycle before he meets with an accident. CAR DRIVER.

THANKS

May I, on behalf of the Woman's Auxiliary to the Royal Jubilee Hospital, express, through your columns, sincere thanks and appreciation to all who assisted in making the tag day, last Saturday, such a financial success.

Particularly I would like to thank Jameson Motors Ltd. for granting us facilities in their show-rooms on Broughton Street, as Headquarters, to the St. John Ambulance Brigade and cadets, the Children's Ward Auxiliary and the nurses of the Hospital who assisted with the tagging, and also to the citizens of Victoria and District, who contributed so generously.

MYRTLE ANNETT
President, Woman's Auxiliary,
Royal Jubilee Hospital,
2660 Currie Road.

DOUBLE TAXATION

In an editorial on September 13, entitled, "The Man Who Pays Twice," you said: "It is to be hoped . . . that the Canadian Parliament will have the courage to tackle the present injustice" (the double taxation of shareholders).

May I point out that some years ago Mr. Abbott made provision in the budget for holders of common stocks in Canadian corporations paying Canadian taxes, to deduct 10 per cent of the amount of net dividends, from their income tax. This allowance has since been broadened to include preferred dividends and has been increased to 20 per cent of net dividends from such corporations. It must not, however, exceed the increase in income tax due to including such dividends in income, and also, the 2 per cent Old Age Security Tax may not be reduced by this credit. For 1935 the shareholders in the lower income tax brackets paid nothing, or very little on such dividends beyond the 2 per cent Old Age Security Tax.

Mr. Abbott introduced these changes partly to give a measure of relief from double taxation and partly to encourage Canadians to provide equity or "risk" capital, without which our free enterprise system could not function.

You also said that every man who holds a life insurance policy is the victim of double taxation. But ordinarily

one Canadian company holding stock in another, does not pay income tax on the dividends it receives, and I have not heard of insurance companies being an exception.

The United Kingdom avoided this form of double taxation for many years. I believe it was first introduced there during the last war. ALIUS.

POINT OF DIFFERENCE

I agree with Mr. John Green when he says too many people take for granted what other people say about the Bible.

However, I think most people will disagree on his interpretation of I Cor.: 15:50 which says flesh and blood cannot inherit the Kingdom of God.

This Scripture he says means that human beings cannot enter this Heavenly Kingdom therefore Jesus taught people to pray for an earthly kingdom.

I think if Mr. Green would read this whole chapter with an open mind he would see things quite differently—even the two next verses to the one he quoted, which says: "Behold I shew you a mystery we shall not all sleep but we shall all be changed in a moment in a twinkling of an eye at the last trump for the trumpet shall sound and the dead shall be raised incorruptible and we shall be changed."

This means, according to the rest of this chapter, that the human body which is only temporal must either die or be changed to a spiritual body before it can enter or inherit the spiritual or Heavenly Kingdom.

TOM CLARK.

Royal Oak.

MINIMUM REQUIREMENTS

Maybe it is not quite in order for me, an old retired farmer, to mention some of the inspirations gathered from listening to the Primate of the Anglican Church, the Archbishop of Canterbury, in the addresses he gave last Sunday.

His references to the Ten Commandments as being the minimum requirements of a Christian indicates how far many of us have slipped in this mechanical age, when the "4th" Commandment, to many, is either ignored or overlooked.

I voiced the opinion to an elderly supernumerary minister of another Protestant denomination "What a wonderful thing it would be if, when asking any person to what religious views do you subscribe or hold, the answer could be: 'I am trying to be a Christian, with all that it implies.'"

Likewise, in political life, to receive the answer "I am a Canadian, putting my country's interest first and before my own."

What a solution for industrial unrest and strife and what an example for the rest of the world.

On the front page of Sept. 11 issue of "Saturday Night," the chairman of the National Progressive Conservative Association, George Hees, recently stated in Ottawa that his party would have better luck at election time if it used more zaps and gimmicks.

With such ideas, surely we need a good housecleaning and politics take on a real seriousness for the good and welfare of the nation.

New Approach to Defense

By JOSEPH and STEWART

ALSO from Washington

AS TIME PASSES, the problem of the American continent against actual physical destruction looms larger and larger, until it begins to dwarf all other national problems.

Only a little while ago, the threat of devastating atomic attack seemed to most people something to worry about later. Now the threat is so real and visible—at least to those officials with access to hidden facts—that it begins to seem that something really serious may belatedly be done about it.

Two distinguished special commissions—the last in a long series—have been appointed to study once again the central and dominating problem. One of these commissions was appointed by the National Security Council. It is composed of high government officials and of outside experts, among whom the most important is Dr. James Killian of the Massachusetts Institute of Technology.

The second commission was appointed by Rep. W. Sterling Cole, chairman of the Joint Committee on Atomic Energy.

The familiar problem which confronts both these commissions, is in its essence simple enough. Two years ago, the Lincoln Project report proposed a serious effort to create a continental defense against air-atomic attack. This effort was to consist essentially of two parts.

The first part was an early warning line or lines, to provide several hours' warning of impending attack by the Soviet "long-range air army." The second part was the means to respond to the attack. An effective response would require a chain of fighter and missile bases, reaching up into northern Canada, so that any attacking force would have to run a murderous gauntlet of defensive fire.

RELATIVELY CHEAP

The warning system is relatively cheap, and there is no longer any real argument about it. The mid-Canada warning line is already going forward, and the construction of the Far North Line, on the continental fringes, has been approved at least in principle. But an effective response will be anything but cheap. The needed chain of fully-equipped fighter and missile bases would soon add 2.5 billion dollars to 5 billion dollars to the yearly budget.

Throughout the whole, long, wasting argument about air atomic defense, this has been the real sticking point. The proponents of balancing the budget at whatever cost to national security instantly attacked the Lincoln Report as dream stuff by long-hairs. They were joined by the big bomber generals and their spokesmen, who feared—without any visible justification whatever—that a serious air defense would bite into the Strategic Air Command's budget.

In the face of such powerful opposi-

tion to an effect air defense, the Administration adopted a tactic of buying time by appointing committees. The Lincoln Project is the distant ancestor of the present commissions, but they have all sorts of intermediate ancestors, including the Kelly, Bull, and Sprague inquiries, and many less formal studies.

Each study produced essentially the same answer—a far more effective defense against air atomic attack is both possible and essential. The fact that the original Lincoln Study set an 80 per cent "kill rate" as a target was supposed to be evidence of unrealistic "Moginot Line thinking." As a result of the more recent studies, the target of attacking bombers destroyed has been upped to 90 per cent—enough to insure against really crippling attacks, even with hydrogen bombs.

NEW ATMOSPHERE

With this background, the two new commissions are getting on with their work in a wholly new atmosphere. Significantly, Dr. Killian, who is playing the major role in the study for the N.S.C. also contributed importantly to the Lincoln Project report.

As for the Wedemeyer group, at least two members—Gen. Wedemeyer himself and Charles Lindbergh—have deep budget-balancing instincts. But the group has been working hard, and receiving an intensive education in air-atomic realities in the process.

And there is already some reason to expect a strong, and unanimous, report proposing a much accelerated air-atomic defense effort. Meanwhile, of course, almost two years have been largely lost. And now a new argument is being heard—that the Soviets will soon have ballistic missiles, against which there is no known defense. This may be so. But at least it is worth bearing in mind the people who are now saying it is too late are the very same people who were responsible for the delay.

Stewart

being heard—that the Soviets will soon have ballistic missiles, against which there is no known defense. This may be so. But at least it is worth bearing in mind the people who are now saying it is too late are the very same people who were responsible for the delay.

MARKED for READING

FRIENDS IN NEED

Some women's institutes have got a system of friends by which in each village and, indeed, in each hamlet, and for each old person there is a friend assigned to them who can visit them, who can sit with them if necessary, who can see that they are never alone and never lonely too long, and who can carry out for them many of the small services—shopping perhaps—perhaps the writing of a letter if they can't write, that makes so much difference to the way that those old people live.

—Iain Macleod, Britain's Minister of Health.

Edna's Mother

EDNA'S mother had the bed next mine in the public ward. She was dying, though she hadn't reached the stage of senility yet.

I never did find out what was wrong with her. I think it was just that her poor, tired old mind and body were wearing out. I think, too, that she had come to the point when she couldn't tell the difference between night and day.

For in the night she talked a lot to herself. And always the talk centred round Edna.

"Edna and the children came to visit me," she said. "And we had chicken for supper and mashed potatoes and cauliflower with white sauce. And I made the chocolate dessert that Edna loves."

Listening when I, too, was sleepless, I heard so much about Edna—about the day when she was scared of starting school and her mother went along with her to the Grade 1 classroom; about her graduation dress and wedding day. I heard about the long and difficult birth of her first child, and how the hours of waiting for news had seemed to last forever.

From all this, I built up a mental picture of Edna—rather rosy, as is my way.

And then, next afternoon, Edna came to see her mother. She was completely ordinary. Plump and middle-aged and very plain. In her hand she had a bunch of flowers.

And the terrible part was that her mother

didn't even know her. The little Edna, the long-ago one, was much more real than the Edna of today.

Edna didn't stay long because there was no point to it. She gave the flowers to the nurse, explaining that her husband and the children were waiting in the car.

And off she went, torn by the conflicting duties which rack all married women who've reached middle-age.

And sometimes a public ward seems so sad to me that I can hardly bear it. But for all that it is, I think, a reassuring sort of place. More reassuring, really, than a private room with phone and flowers and specials.

For in a public ward you see, first hand, man's humanity to man. People are so kind to one another when all are in discomfort or distress. The limping man who fetches water for the fellow in the bed next to his. The woman who stifles her moaning for fear of disturbing the others. The crusty old man who sits patiently beside a little child to help him learn to bear the unaccustomed burden of pain.

And I'm sorry to be sad today. But sometimes when we read stories of savagery and violence, of man's inhumanity to man, of old-fashioned discrimination because of creed or color, it's just as well to remember the other side and to think of the places where the nobility and essential decency of man shine through.

I, for one, shall never forget the lesson of the public ward, and what I learned from listening in the night to the most precious memories of Edna's tired, unselfish mother.

Ruth

VOICE OF BROADWAY

By DOROTHY KILGALLEN

Along the Grapevine

(Miss Kilgallen appears each Sunday night on "What's My Line?"—KINT-TV, Tacoma, at 7:30 p.m.)

NEW YORK — COLORFUL CROONER Billy Daniels, of "Black Magic" fame, is on a new romantic kick. The clue: he's buying a 14-carat diamond for his latest love, a television starlet. . . . Tourists by the hundreds—and plenty of New Yorkers, too—are making 164 E. 61st St., a sightseeing stop. That's the house where Marilyn Monroe leaned out of the window in the best-publicity stunt of the past five years.

Warren Magnuson, the Senator (D-Wash.) with the eye for pulchritude, supped with actress Sherri Windsor before he headed West. . . . The former wife of a famed actor-director was robbed recently. But the amount taken wasn't high in the thousands, so she told chums the burglar wasn't "chic enough" to report to the police.

JACK WEBB was given the gilt-edged treatment in Chicago during the "Dignit" personal appearances he lollied in a \$100-a-day penthouse suite at the Ambassador, rode around town in the bullet-proof Cadillac usually provided for President Eisenhower, and was assigned Ike's bodyguard, police Lt. Lou Sweet. (Even Judy doesn't get that service from Warren.)

Andy Carey, the Yankees' third sacker, has discovered Casey Stengel's pretty niece. . . . Charles Murphy, who just resigned his New York judgeship to become the censorship czar of the comic book industry, brushed reporters at his first press conference when they asked about his salary—said it "didn't matter." Insiders report the figure is \$20,000 a year.

IS IT TRUE PETER CROSBY (once married to Denise Darcel) plans a \$1,250,000 lawsuit against Serge Rubinstein over a business deal?

Isn't the police clean-up of hoodlums in the Times Square area about to shift to the "undersirables" along Lexington Ave in the forties, fifties and sixties? . . . Does anybody really believe Olivia de Havilland is going to marry Pierre Galante after all the postponements?

WEATHER SYNOPSIS

CITY'S WEATHER RECORD
Sunshine, 1954 . . . 1,639.0 hrs.
Last year . . . 1,647.4 hrs.
Precip. to date . . . 18.02 ins.
Last year . . . 17.43 ins.

SYNOPSIS—A deep, low-pressure area remains over the whole Gulf of Alaska today, bringing cloud to almost all sections of the province. Precipitation has spread to all coastal areas and the Cariboo. The west coast of Vancouver Island received the heaviest falls with amounts ranging from one to two inches in the last 24 hours.

Little change is expected Friday.

Toronto Main Drag To Be Dance Floor For Big Reopening

TORONTO (BUP)—For one night next month this city's main drag will become a ballroom for a dancing citizenry.

The Downtown Businessmen's Association announced today that the reopening of Yonge Street, made notorious by years of upheaval and acres of displaced mud, will be one big gala affair.

Reconversion from 25 to 60-cycle power units, construction of Canada's first subway and general street improvements turned the city's major shopping avenue into 15 miles of mud during the past five years.

Provisional date for its reopening was set for Oct. 13. The association said the ceremonies would include two days of parades with bands and floats, a beauty contest and a city hall ceremony.

Board of control voted \$2,500 to the association Wednesday as a share in the expenses.

day. Cloud will cover the whole province and keep temperatures slightly below those of the last few days. Showers will again occur along the coast and in the Cariboo.

DOMINION PUBLIC WEATHER OFFICE 9 A.M. FORECASTS

Forecast valid until midnight Friday.

VICTORIA—Cloudy today and Friday. Not much change in temperature. Light winds. Low-high Friday 52 and 62.

GEORGIA STRAIT—Cloudy with a few showers today and Friday. Not much change in temperature. Winds southeast 15 occasionally 20. Low-high at Nanaimo 58 and 62.

WEST COAST—Intermittent rain today and Friday. Not much change in temperature. Winds southeast 15 occasionally 20. Low-high at Vancouver 58 and 62.

VANCOUVER—Cloudy today and Friday. Scattered showers overnight and Friday. A little cooler. Light winds. Low-high at Vancouver 58 and 62.

MATCHLESS MEETING—Italy's glamour star Gina Lollobrigida, left, who insists she and Marilyn Monroe are "quite different," matches measurements with the Hollywood beauty as they meet in a New York City theatre.

Malan to Take Over Schooling of Blacks

PRETORIA (AP)—Schoolbells in South Africa are tolling out the last days of church mission schools.

The missionary schools, which have educated black-African children for more than a century, are headed for extinction under a new education law centralizing education of all natives under government control.

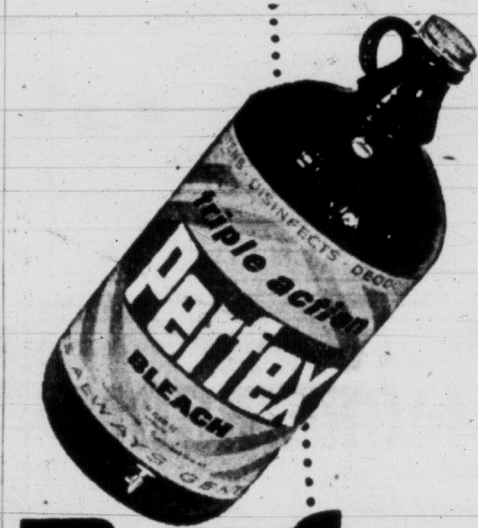

Church groups, both Protestant and Roman Catholic, have voiced strong protests to the new law. The churchmen are still in the dark as to the full scope of the legislation but insist it will mean inferior education for the natives. The opposition to Prime Minister Daniel X. Malan's nationalist regime takes the same stand as the churches.

The plan is part of Malan's apartheid (racial-segregation) program. Black and white children never sat side by side in the mission schools, but the change is designed to put all native education in the hands of the department of native affairs. Supporters of the law say its aim is to educate the native for his "proper role" in society. Its opponents say that means a permanent category of second-class citizens.

As a first step in the change-over, education subsidies to church groups are being reduced. Up to now these subsidies covered 100 per cent of the teachers' salaries plus an amount equivalent to rent on church-built schools.

"SLOW STRANGULATION"

Rev. Spencer Hall, director of Anglican missions in one diocese, told an opposition newspaper, the Johannesburg Star, that the decreased subsidy "is a process of slow strangulation." He said it would be im-

Perfex bleach is safe for SEPTIC TANKS

You may have heard the old story that if you live in a home with a septic tank, you shouldn't use bleach. Well—that isn't true. When used according to directions on the label, Perfex bleach—because of its controlled action—will not impair the effectiveness of your septic tank.

In other words, because you have a septic tank you don't have to do without the advantages of using Perfex in daily housekeeping. Use Perfex bleach safely—and effectively—to wash dishes, sinks, bathroom fixtures, to keep clothes really clean—in fact, for all the dozens of uses listed on the Perfex label. Perfex whitens, disinfects, deodorizes—provides added health protection for your family by making household surfaces hygienically clean.

Rape-Attempt Proved, Assize Jury Rules

Leniency Recommended for Soldier Convicted of Attack on Indian Girl

Thomas Patrick Welsh, 22-year-old Work Point Barracks soldier, was convicted by an Assize Court jury Wednesday of attempted rape of an Indian woman.

But the verdict of guilty was followed by a strong recommendation for leniency. Mr. Justice A. M. Manson said he would consider the jury's recommendation and remanded Welsh until next week for sentence.

Police Baffled By \$112,000 Gold Theft

LONDON (UP)—Scotland Yard warned police around the world today that robbers who stole \$112,000 worth of gold bullion may try to market it by converting it into gold coins for sale abroad.

At the same time, an air and sea blockade was thrown around the British Isles while an intensive search was made for the daring bandits.

Scotland Yard chiefs were virtually certain that the same person masterminded Tuesday's brazen daylight robbery of a KLM Royal Dutch Airlines truck and an unsuccessful attempt to steal \$700,000 in gold six years ago.

Despite the imposition of a tight blockade, officials flashed an alert through "Interpol"—the international police agency in Paris—to authorities in Europe, the Middle East and the Orient.

"There is a ready market at many points for 'souvenir' coins of real gold. Illicit gold sovereigns, outdated coins no longer minted legally, still finance undercover trade in narcotics, smuggled goods and war materials."

Jurymen took two hours and 30 minutes to arrive at a verdict. Once during their deliberations they asked Mr. Justice Manson for further direction.

The jury had the alternatives of finding the accused guilty of indecent assault or common assault.

The Crown's case at the trial was that the accused took the Indian woman home in a taxi on the night of May 1, and assaulted her near her home at the Craigflower Reservation. Her screams brought members of her family to the scene.

Welsh admitted taking the girl home and making love to her, but strongly denied he assaulted the woman. He said the girl stumbled during an embrace near her home and let out a "frightened shriek."

He denied he had thought of any familiarities without her consent.

H. A. D. Oliver, of Vancouver, defended the accused. R. A. Wootton, QC, was acting as counsel for the Crown.

LOTS OF TURKEYS

Canadian farmers had an estimated 3,500,000 turkeys in August, 1954, or 23 per cent more than in August, 1953.

The Montmorency Falls near Quebec City is 240 feet high, but only 50 feet wide.

Last Canadian Fighter Wing Will Leave U.K. for France

LONDON (CP)—Canada's remaining air strength in Britain is expected to be transferred to France within the next six months, completing a move which may have been deferred at the express wish of Prime Minister Churchill.

The last remaining RCAF fighter wing in Britain, now stationed at North Luffenham, Rutland, will probably go to new quarters at Marville, France, early in 1955.

The transfer originally was scheduled to have taken place six months or a year ago. The Manchester Guardian now says the delay was caused because there was pressure from Whitehall to keep the three squadrons in Britain.

"Personal intervention by the prime minister is said to have done the trick," the newspaper adds.

The presence of the Canadian

Sabre jet fighters in Britain was believed particularly convenient for the British government, whose own jets have been slow in coming into service. In a press conference Wednesday, Canada's Defense Minister Ralph Campney, announcing the projected move of the

early in the new year, implied that the transfer would be possible because conditions "now have altered. This is taken to mean Britain's Hunter and Swift fighters may be ready for operational use within a few months."

SOME VACANCIES NOW AVAILABLE FOR RETIRED PEOPLE AT THE GLENSHIEL

tastier coffee!

Yes, new Nescafé is actually an improvement over ground coffee... tastier, cup after cup! It's pure coffee, percolated as you make coffee at home. But Nescafé's scientific controls bring out the consistently fine flavor no home-brewed coffee can match! Then an exclusive process instantly removes the water and transforms this perfect coffee into gems of Nescafé. Just put back the water, you've got the most delicious coffee that ever filled your cup. Try this modern, tastier coffee! Get new Nescafé today!

British Men Given Tips On Where to Find Mate

LONDON (CP)—Two London economists have some tips for young Britons seeking mates. Dr. Michael Wise and Daniel Sinclair, lecturers in geography at the London school of economics, say that men searching for wives should head for the southeast coast of England, the northwest coast of Wales and the Lancashire seaside towns. Women outnumber men in all these areas. Ten counties are listed for

Suit Pressing Costs City Man \$400

VANCOUVER (CP)—A visitor from Victoria got taken to the cleaners Wednesday at a downtown cleaning store. J. A. Sim told police someone stole his wallet containing \$400 as he changed his clothes to have his suit pressed in a Carrall Street cleaners.

OLD SWEDEN

The Swedish seaport of Kalmar on the island of Quarnholm has a castle dating from the 12th century.

Mantovani, 'Cascading Strings' Maestro, To Make Fall Tour of U.S. and Canada

LONDON (CP)—Mantovani, the British music stylist whose "cascading strings" rival Andre Kostelanetz for lush packaging of light music, leaves soon for his first Canadian-United States tour. Mantovani's distinctive "velvet" style of arranging has swept Europe and is invading North America on records. The Italian-born conductor flies to Canada Sept. 26 for a series of personal appearances in Montreal, Quebec, Toronto and the United States. Mantovani's style is described variously as "tumbling" or "singing" strings, and it isn't achieved by studio effects as is sometimes suggested, he said in an interview. Mantovani starts rehearsing with a 60-piece Montreal orchestra the day after arriving and expects to keep up a torrid pace. "It will be sheer hard work," he said. He's just been awarded membership in the New York Academy of Musical Recorded Arts on the basis of popularity polls in Canada and the United States. But he still prefers to think of himself as a violinist at heart, who dropped out of the concert route during the Second World War because he lacked the time for practice and didn't want to be mediocre. He dropped his christian name, Annunzio, about the same time.

RIGHT THROUGH—YATES TO VIEW

Lulu Island Cattle Found TB Sufferers

VANCOUVER (CP)—Discovery of tuberculosis in seven slaughtered cattle from a nearby Lulu Island farm Wednesday touched off an intensive search for the source of the disease.

Dr. F. W. B. Smith, chief federal inspector of animal health in Vancouver, said the search will include farm workers, farmers and their families and "any possible carrier or infected animal or person."

Dr. Smith said discovery of the disease will not prevent the Fraser Valley from being declared TB-free, since one-tenth of one per cent of cattle can be infected in any given area and still be considered free of the disease.

The inspector said he suspected three beef cattle first found to be infected came from the Merritt area, and added that a close check was under way there.

The farm from which the seven infected animals came originally had 20 head, six of which were dairy cattle, but no milk was being shipped from the farm.

FINE FUR

The marten, valued for its fine fur, is a species of weasel somewhat smaller than a house cat.

Fatal Plunge

Death awaited Kenneth Adams on the rocks below as his auto plunged off a cliff at Daredevil Speed Bowl in Verona, Wis. Adams was to jump from the car before it left the ramp, but he didn't, and was killed when he crashed on the rocks 65 feet below.

Fishermen Mutiny In Bold Freedom Bid

Seven Poles in British Jail Following Seizure of Trawler; Request Asylum

WHITBY, Eng. (UP)—Seven freedom-loving fishermen aboard a Communist Polish trawler beat up their political officer and locked up their skipper today in a high seas mutiny against Communism.

They then put into port seeking political asylum.

The mutineers also locked up eight other members of the crew and made what an English fisherman called "weird and wonderful" signals to passing ships indicating they wanted a tow.

A line was put aboard the Polish trawler several miles off the Yorkshire coast and the vessel was towed to Whitby.

Police jailed the mutineers pending investigation of their asylum request.

Authorities went aboard the trawler and released tinning Capt. Kobryn Wiktor from his cabin, where he had been locked. Motorman Madszek Franciszek, the political officer, was taken to a hospital for treatment of head and facial injuries.

EASILY RECOGNIZED

The haddock, an important Atlantic food fish, is marked by a black line lengthwise along its side.

Veiner Re-Elected

MEDICINE HAT, Alta. (BUP)—Mayor Harry Veiner was re-elected to his second two-year term Wednesday by acclamation.

How to land the job you want

A \$30,000 a year executive? Or after your first job? If you're qualified, and know how to sell yourself—the job is yours, says a famous vocational guidance team in October Reader's Digest.

For the step-by-step way to go after that job, and get it, read the method used by the Man Marketing Clinic—an organization that's helped 60,000 people to better employment.

Don't miss "Pick your job—and land it" in October Reader's Digest. It's just one of 39 articles of lasting interest, condensed from leading magazines, current books.

CRIME UP 8.5% SAYS HOOVER

WASHINGTON (AP)—FBI director J. Edgar Hoover says the national crime rate in the United States jumped 8.5 per cent in the first half of this year, compared with the same period in 1953.

He added that major crimes will reach a record high in 1954 if the trend continues.

'Another Stoke-on-Trent' May Be Developed in B.C.

STOKE-ON-TRENT, Eng. (CP)—A plan to establish "another Stoke-on-Trent in or near Vancouver" has been laid before the British Pottery Manufacturers' Federation.

Einar Gunderson, special trade envoy for British Columbia, outlined the plan Wednesday at a four-hour meeting and reported that reaction was excellent—I think it will be acted upon.

Gunderson, in the United Kingdom to stimulate two-way trade, proposed that British pottery manufacturers as a group should establish showrooms, sales service and warehouses in Vancouver or New Westminster, B.C., thereby providing quick replacement of stock.

Western Canadian sales of Staffordshire pottery were "terrific," but he felt more could be sold.

U.S. POLICY 'NOT TOUGH ENOUGH'

American Legion Chief Says West Losing Fight to Reds

LOS ANGELES (AP)—Seaborn Collins, national commander of the American Legion, said Wednesday the free world is "losing the struggle" against communism and should forbid

F.D.R. Jr. Seen in Line for Governor

NEW YORK (UP)—Rep. Franklin D. Roosevelt, Jr., emerged today as the heir-apparent to the governor's office if the Democrats win the November election, despite the fact he refused to accept the nomination for lieutenant-governor.

Roosevelt, who lost out to Averell Harriman Wednesday in his bid for the gubernatorial nomination, accepted the nomination for the relatively obscure post of attorney-general.

Political observers said that by accepting the relatively minor post Roosevelt actually placed himself in a position to succeed Harriman if the Democrats succeed in winning the election.

They pointed out that Harriman is believed to have as his goal a seat in the United States Senate.

the Reds from crossing a fixed defense line.

The newly elected legion chief received applause from delegates at the American Federation of Labor convention when he suggested present United States government policies are not tough enough against the Communists.

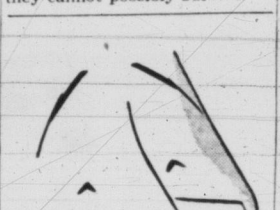

"We must determine a line and serve notice that if the Communists cross it, the consequence will be immediate and total military retaliation against Russia itself," Collins said.

"Fixing the line could be left to foreign policy experts but unless there is a line, our present policies will eventually leave the United States alone and vulnerable in a Communist world," he added.

APPEASEMENT FEARS
"Obviously, we have neither contained Communism nor captured the cold war initiative. That is why legionnaires are

concerned today lest our announced policy of "massive retaliation" terminate in massive appeasement.

"And that is why the American Legion, viewing the hard brutal facts of international life, urges a new policy which will place squarely on the Soviet the choice of either ceasing aggression or causing a war in which they cannot possibly survive."

Home Building Night School Classes High in Popularity

A course designed to teach people how to build their own homes has proved to be the most popular of 75 courses this year by the night school. Figuring the course would attract considerable attention, the school board arranged for two classes to take the course. It has since organized a third and is now turning further applicants away.

The home-building course will be taken by 105 persons. It will cover a period of 18 weeks and those enrolled will be given theoretical and practical training. Each class will erect a full-size wall.

This is the first year the course has been open to everyone. In former years a home-building course was offered by the night school but enrollment was restricted to those building under the Veterans' Land Act.

NESTS ON GROUND

The killdeer, a bird of the plover family, lays its eggs in a hollow in the ground which may be thinly lined.

Conversational French Classes Now Filled

No further registrations are being accepted for a course in conversational French offered this year by Victoria College evening division.

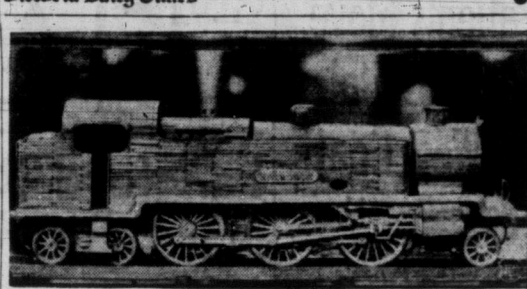

Prof. R. T. Wallace, evening division-director, announced today that 20 persons had registered for the course and the college intended to limit the class to that number.

Dr. Ronald Oldham, assistant professor of French at Royal Roads, will be the instructor.

NORTHERN CENTRE

The town of Peace River, 320 miles northwest of Edmonton, has long been a centre of the fur trade.

Victoria Daily Times THURSDAY, SEPT. 23, 1954

Realistic Choo-Choo

A model of the British locomotive "River Avon" was made entirely of matchsticks by D. Jakes of Buckingham, Eng. Built with 3,200 matches, it has revolving wheels and moving connecting rods.

ESSAY CONTEST SCHEDULED

Milk Foundation to Boost Health Education

The Vancouver Island Milk Foundation has announced further plans for boosting the consumption of milk by Island residents, including a program of co-operation with education officials to conduct an essay contest.

The foundation, sponsored jointly by distributors, producers, and the provincial government, has decided to spend \$1,000 on health education in schools.

Details of the essay competition will be announced after arrangements have been carried out with school board officials.

Decision to further and expand the work of the foundation came after a report that milk consumption on the Island climbed 5 1/2% in the period it has been in operation, over figures for the previous year.

DISTINGUISHED ARTIST

Thomas Mower Martin, noted painter and one of the founders of the Royal Canadian Academy, died at age 96 in Toronto in 1934.

Lithuania, a constituent republic of the U.S.S.R., has more than 2,000 small lakes.

Arnold Webb, an official of the foundation who is also an official of the B.C. Milk Board, said the joint action undertaken by the group "is doing much to eliminate unsettling factors and needless costs."

"These factors alone make the effort worthwhile, and will undoubtedly result in better quality and service to the public and have a beneficial effect on the matter of prices," he said.

The Lancers, a square dance of French origin, required eight persons for each set.

Ladysmith Honors Won By Nanaimo Exhibitor

Mrs. H. Nichols Takes Four Cups At Annual Fair

LADYSMITH—Mrs. H. W. Nichols, Nanaimo, leading exhibitor in the Nanaimo Fall Fair last week, on Wednesday won top honors at the annual Ladysmith fair.

Mrs. Nichols won the E. W. Forward cup for flowers, the W. Wilson cup for most points in the dahlia class, the General Peakes bowl for most points in all classes, and the Canadian Bank of Commerce cup for most points in fruit, vegetable, and field produce sections.

Miss S. L. Roberts won the Saltair cup for most points in the women's work division; Miss Ethel F. Wilson won the T. Bertram cup for most points in the artistic work division, and the Canadian Bank of Commerce tray for most points in the domestic science section went to Mrs. J. L. Paradis of Duncan.

SPECIAL AWARDS

Special awards were given Mrs. Nichols and Miss Roberts for their many years as exhibitors. Miss Roberts entered her first Ladysmith fair in 1913.

In the absence of Mayor Leonard Ryan, the fair was declared open Wednesday evening by Ald. A. T. Verchere.

He commended Tom Bertram, president of Ladysmith Agricultural Society, that sponsored the fair, and F. G. Highfield, secretary-treasurer. He also complimented F. Rumble and R. Simpson for their contributions to the success of the fair.

Mr. Bertram in turn praised Rev. C. McDiarmid, secretary of the society for the past 18 years, who resigned this year at the age of 90, and acted in an advisory capacity only.

VARIED FLOWERS

Among outstanding exhibits were the floral arrangement entered by the newly-formed Glad-Joli Club, and a non-competitive display of cut flowers, flowering begonias and African violets entered by the Ladysmith Garden Club.

Dr. D. B. Quayle, director of the B.C. department of fisheries shellfish laboratory at Ladysmith, and his stenographer technician, Miss Lenore Brinham, entered a display of equipment used and marine life studied at the laboratory.

An attractive agricultural display was entered by Cedar Activity Club, featuring the dairy products, vegetables, fruit and flowers produced in the Cedar district.

FEW VEGETABLES

Samples of school work up to Grade 12 were on display.

One of the finest entries by an individual was the showing of dahlias entered by F. Rumble of Saltair, ranging from tiny pompons to giant blooms with heads of more than 10 inches in diameter.

Fruit and vegetable sections were weak because of the wet summer and tardy ripening of crops.

Judges were W. J. Pynn, Mrs. W. Browning and A. E. Littler, all of Victoria, and Mrs. F. Reed, Saltair.

Among guests at the opening ceremony was L. W. Johns, Victoria, superintendent of farmers' institutes.

The fair will conclude tonight.

Patients Move Into Hospital On West Coast

Volunteers Aid With Transfer

TOFINO — Patients have been moved from temporary quarters in use here since May, 1952, to the brand new \$225,000 community hospital.

The transfer was made under the direction of Dr. G. J. Fyffe, medical superintendent, and Mrs. Myrtle Dickinson, matron. Flt. Lieut. J. Ashworth, commanding officer at Tofino Airport, loaned equipment and men. Also assisting were H. Sioman, coxswain of the Department of Transport lifeboat, and his crew.

PRESENTATION

Ladies' auxiliary to the hospital, headed by Mrs. Fred Heglin, will present an engraved sterling silver cup to the first baby born in the hospital.

The old hospital was destroyed by fire in May, 1952, and since then the nurses' home has served as a temporary hospital.

The new building was opened officially by Health Minister Eric Martin Aug. 12. The ceremony was attended by 1,000 residents and visitors from other Island points.

NORTHERN STREAM

Lunenburg in Nova Scotia was first settled in 1751-3 by German emigrants from Hanover.

ISLAND DIGEST

10 Victoria Daily Times THURSDAY, SEPT. 23, 1954

Langford Residents Name Board Members

LANGFORD—Representatives from Langford to the board of School District No. 62 (Sooke) will be Aubrey Hall, J. A. Jackson, A. R. Plumb and Nils Smith.

The four were elected at a local ratepayers meeting in Langford School Tuesday with school board chairman E. H. Emery of Colwood presiding.

Reporting on the year's work, Trustee Mrs. Alex. Turner stressed the district's growth, pointing out that in 1947 Langford had a total of 500 school pupils compared with a registration of 1,534 in 1954.

Langford school is overflowing, Mrs. Turner said, and it may be necessary to open another room and engage another teacher; this would mean using an old classroom.

Belmont Junior High School has 30 unexpected students and is also overtaxed, she reported, especially in industrial arts and home economics classes which are compulsory subjects in Grades 7 and 8.

REORGANIZATION

The disproportion of boys to girls at Belmont this year has meant reorganization of industrial arts classes to meet accommodation needs, said Mrs. Turner. Grade 7 alone having an enrolment of 119. The general increase in students re-

sults in three or four classes for each grade.

The meeting was told 57 teachers were employed in the school district at an annual gross salary of \$200,000 which averaged \$3,560 per teacher, with an increase of \$10 per teacher over the first half of 1954. This takes up half of the annual school expenditure and is about average for the province.

Langford school spends \$26,000 annually on teachers' salaries and Belmont \$62,000. Most of the buildings covered by the recent by-law have been completed, Mrs. Turner reported, but if the increase in population continues more classes or a new school will have to be considered.

Island Students Awarded UBC Scholarships

Latest city and Vancouver Island winners of University of Columbia bursaries and scholarships were announced today.

Patricia Ann Burnett, 624 Belton, won the Alvin Cunningham pharmacy bursary of \$200, and medical bursaries of \$100 each were awarded to Kenneth David Dick, Campbell River, and Donald Carl Martin, 777 Coronation Avenue, Duncan.

Farmers Name Conference Delegates

LUXTON — Metchosin Farmers' Institute has named F. Chidlow and J. Middleton as delegates to the forthcoming District A convention in Nanaimo.

At the regular meeting of the institute, it was decided to insure the new fair building for \$6,000 at the lowest available rate.

H. Hobbis was named chairman of a committee to provide programs during the winter. Members are J. L. Williamson, W. Christie and Alan Littler.

W. P. Hobbis was appointed chairman for the banquet to be held at the hall Oct. 7.

A work party will meet Sunday at the fair grounds to finish the new hall.

FLOOR COVERING

Rotary Governor Due to Visit Clubs on Island

CHEMAINUS—Top official in Rotary International for the Pacific Northwest, George Maloney, governor of district 151, will visit the Chemainus Rotary Club, September 29.

Currently on the annual governor's tour of clubs in Alaska, British Columbia and Washington, Mr. Maloney is due to arrive on Vancouver Island today when his first visit will be to the Campbell River Rotary Club. After visiting with officials and members of the Chemainus club, he will travel to Duncan, Sidney and then Victoria.

The district governor is a member of the Rotary Club of Puyallup, Wash., and is a past president and former director of that club. In addition to service club work, his various community activities include participation in civic affairs. In business, he is a retail florist.

New Canadian Plane Fastest in World

SOUTHAMPTON, England (CP)—Four of Britain's leading aircraft brains boarded the liner Queen Elizabeth for Canada Wednesday night to study a new Canadian supersonic fighter plane said to be "better than anything of its kind in the world."

JET PLANES OBSOLETE IN 5 YEARS

VANCOUVER (BUP)—The director of the B.C. research council, Dr. Gordon M. Shrum, said modern jet bombers and fighters will be obsolete in five years.

Dr. Shrum told the International Northwest Aviation Council meeting in Vancouver that the modern aircraft will be replaced by guided missile bombs by 1959. He said the guided missiles will be able to cover up to 4,000 miles in an hour and drop an H-bomb within 100 yards of its target.

U.S. Officer Guilty of Collaborating

FT. SHERIDAN, III (AP)—Canadian-born Lieut. Col. Harry Fleming was convicted Wednesday of collaborating with the enemy in a North Korean prison camp, the first U.S. army officer ever court-martialed on this charge.

Fleming was sentenced to be dishonorably discharged. He will forfeit all pay and allowances.

The white-haired, 46-year-old infantry officer was cleared of two other charges—informing on other prisoners under his command and of conduct unbecoming an officer in allegedly stepping on the foot of a soldier, also a prisoner of war.

Fleming accepted the 11-member court's findings without show of emotion.

Immediately, the court began hearing arguments of "mitigation and extenuation" as a prelude to passing sentence.

The maximum penalty could include dismissal from the service, forfeiture of pay and life imprisonment at hard labor. There was no indication when a decision on any penalty would be reached.

Fleming, a native of Grenfell, Sask., now living at Racine, Wis., was the first American Army officer to be court-martialed for his behaviour in a Communist prison camp during the Korean War.

PAPER OFFERS \$1,000 REWARD

VANCOUVER (CP)—The Vancouver Sun Tuesday offered a reward of \$1,000 for information leading to the arrest and conviction of slayers of Danny Brent, 43-year-old club waiter.

Brent's body was found on the 10th green of the University golf course here Sept. 13. He had been shot in the back and police termed it a gangster-style killing, possibly connected with the narcotics racket.

Woman asks Dr. Peale about:

The Will-Power to Lose Weight

How can a woman reduce when she can't find the necessary will-power? This question is asked of Dr. Norman Vincent Peale in the new issue of LOOK magazine. Dr. Peale, noted author of *The Power of Positive Thinking*, offers her an interesting answer. You'll find it interesting, too. Get LOOK at your newsstand now.

IMMIGRATION DEPT. WILL REVIEW CASE

VANCOUVER—An immigration department spokesman said Wednesday a decision refusing permission to a Dutch paintmaker in Vancouver to bring his wife to Canada is being reviewed.

The spokesman said, the wife of Petrus Godtfrid-Haker, 45, has not been permitted to enter Canada because she does not meet Canadian requirements. He declined to say whether this was for political or health reasons.

"I have never belonged to any subversive political parties," he said. "My family is in good health."

Car Owners Asked to Notify MVB of Change in Address

Motor Vehicle Branch officials today appealed for support of the driving public in overcoming "frantic" last-minute searches for motor license renewal forms.

Although 1955 licenses will not be put on sale before Jan. 3 next year, the branch already is engaged in preparatory work to ensure the license issuance will be carried out without inconvenience.

Officials asked car and truck owners who have changed addresses but who have neglected to inform the motor vehicle branch, to write a note immediately, giving license number, and old and new address.

Last year, some 10,000 renewal forms were returned because motorists had not complied with the law which requires the branch be informed of all moves.

Shamrocks Dined Feted And Then Aggrieved

Peterborough citizens are doing their best to make Victoria Shamrocks' stay a pleasant one during the current Mann Cup Dominion lacrosse playoffs, but the Peterborough Trailermen aren't proving as friendly on the field of play. (Left), Tom Taylor, president of the Rotary Club, welcomes the Irish at club dinner Monday. Team members shown, left to right, are Jim Hetherington, Jack Thompson, Arnie Duggan, Jack Bacon and Larry Booth. (Below), Shamrock coach Red McMillan is being introduced to Taylor by Wally Cattel, CLA president. (Right), Denny Peterson of the Trailermen scores over Geordy Johnston's shoulder in third game of series Monday, won by Trailermen, 9-4. Ball can be seen at top of net. Rock defenseman is Jake Proctor. (Photo by Grant.)

Fourth-Place Money Not To Be Sneezed at

IT'S MY VIEW

By BILL WALKER, Sports Editor

This is starting out to be a report of what the hockey fans might expect this year, but it's due for interruptions.

For at the present time the first weather report has come in from Peterborough and it says "clear and cool."

Perhaps we should note too that his opus is being written Wednesday (not today) so as not to confuse the issue more than the confusion that surrounds the current Mann Cup boxla playdowns.

But as we said, this is a report from your agent concerning the Victoria Cougars. And thank goodness for a hockey president like Al Leader. At least he can keep things in control.

Firstly, the Cougars have a goalkeeper in Marcel Pelletier who should give as good, if not better, goaling than the Cougars have had in some time.

(A heavy shower just hit Peterborough, but the field enclosed by what is known as "Miller Bowl" is still described as "playable." The report doesn't say playable at what or for what?)

The Cougars this year have a defense of Bill Davidson, Wally Cattel and Mike Keating that presently does not compare with defenses of the past and obviously needs some work done on its constitutional make-up. Pete Durham, liking the mainland variety of ducks better than the Island type, could aid the cause materially, but it appears that more than Durham is needed.

(A strong westerly wind now is blowing in Peterborough and the threat of rain again is imminent.)

Cats Comers, Rocks Rained Out

Up front the Cougars have as much and probably more, than they had last year. This figures because Wayne Brown and Mark Marquess are in the fold, but only if Brown can be supplied with the centre that can help him produce a reasonable facsimile of the 47 goals he scored for Seattle Bombers last year.

That centre ice player must be found within the group composed of coach Billy Reay, Doug Anderson and Gene Achymichuk. One of these, or someone in the crystal ball, must resemble Guyle Fielder if Brown, good as he is, is to enjoy comparable success this year, Fielder being his able running mate of last season.

(It is now raining in Peterborough and the sport that was moved indoors in most progressive leagues, is about to be washed out at the home of the Canadian champions.)

We have never had any fault to find with Colin Kilburn and Andy Heberton before now in regard to their accepted place in the Western Hockey League, and we find none this year.

(The Mann Cup playoff game has now been officially rained out and Miller Bowl again becomes "Miller Hole" as the Shamrocks so affectionately have dubbed it.)

Cats, Rocks, Cats—Phooey

Dave Wall is another newcomer on attack to go with Doug Macduley and Alex Kuzma. All three appear capable of making their place on a WHL club, but all three have to make that place for themselves. And although the thought is that they can do it, a left winger of note is indeed a prime need if...

(What's the use? The Shamrocks are up in arms again over Miller Bowl; won't play there any more and have threatened to come home if the CLA doesn't move the series indoors. Just in time for the late edition, too. ... And the Rocks, Petes, CLA officials are all grown men with the future of lacrosse at their finger tips! What a farce! And that statement covers everyone concerned regardless of where the blame should be placed.)

The Cougars—well, you can see for yourselves next Tuesday. At least the management agrees that they do need a defenseman, a left winger and a centre.

PS—This boxla thing is becoming so stupid it defies adequate comment.)

Bob Fleming Victor In California Golf

Bob Fleming of Victoria, Wednesday advanced to the second round of match play in the California State Amateur Golf championship at Pebble Beach by eliminating Jerry Douglas of Riverside, Calif., 3 and 2.

Fleming qualified for the championship with a 73-79 152, while Lyle Crawford of Vancouver shot a 74-75-149 to gain the first round.

Crawford was ousted from further contention Wednesday, suffering a 5 and 3 loss to Bob Roose of San Francisco.

Hot Putter Could Take Pot

WASHINGTON (UP)—The nation's leading golf pros kissed their putters for luck and started shooting today for \$10,000 in prize money in the national celebrities tournament, the so-called "world series of golf."

The pro with the hottest putter was picked to win the four-day, 72-hole medal play over the easy Congressional Country Club course, a par-71 layout with little rough and short distances.

NEW YORK (AP)—The all-time certain capacity crowd which will pack New York's Polo Grounds next Wednesday for the first game of the world series will be able to compare two of baseball's premier centre-fielders—Willie Mays of the Giants and Cleveland's Larry Doby.

Both powerful batters, fleet of foot and with good arms, Mays and Doby are a cinch to finish up close in the most valuable player awards voting, if not at the head of the class.

Mays started and extended

On the theory that \$750 is still \$750, four teams still retain a vital interest in the final major league baseball standings.

The \$750 represents the approximate share for each player of the world series money for members of the fourth-place teams in each league. And fourth place still is a battle in both leagues.

In the National, only a game separates Cincinnati and Philadelphia. Boston leads Detroit by a game and a half in the American League. The Redlegs have just two games left and the Phillies have six to play.

Cincinnati still is scrambling about the 31 loss in Milwaukee Wednesday when a ninth-inning rally was brought to an abrupt end by a freak double play.

STRIKEOUT STARTS IT

With runners on first and second and one out, pinch-hitter Bob Borkowski struck out on a wild pitch. While catcher Del Crandall chased the ball, Gus Bell dashed from second to third and Borkowski headed for first in a hurry, since if the catcher drops a third strike he usually has to throw out the batter at first.

Crandall threw to third-base man Eddie Mathews in a vain attempt to catch Bell and Mathews fired across the diamond when he saw Borkowski racing for first. His throw hit Borkowski in the back and rolled into right field, and Bell scored from third. Wally Post also scored from first.

The umpires, however, ruled Borkowski was out automatically on his strikeout since first base had been occupied. Then they ruled Borkowski had interfered with the attempt to catch Bell because he drew a throw to first. The rules say in this case the other runner, Bell, is out. The two outs ended the game and the Reds filed a formal protest.

There was no room for protests at Philadelphia, where the Phils walloped Pittsburgh twice, 12-1 and 5-1. Robin Roberts won his 22nd game, a four-hitter, in the nightcap.

Detroit beat Baltimore 4-1 on Steve Gromek's four-hitter.

EQUAL MARK

The American League champion Cleveland Indians equaled a 27-year-old record for the most games won by beating Chicago 3-1 for their 110th victory. The National League champion New York Giants bowed 3-0 to Karl Spooner, of the Brooklyn Dodgers, who set a major league record for rookies by striking out 15 in his first start in the big time.

New York Yankees defeated Washington 3-0 with Tommy Byrne winning his third game as the Yanks came up with a triple play, fifth in the majors this season.

Brooks Lawrence won his 14th game for St. Louis Cardinals, checking Chicago Cubs 6-3 on five hits.

Wings Top Flyers

SAULT STE. MARIE, Mich. (AP)—Two third-period goals enabled Detroit Red Wings of the National Hockey League to win their second straight exhibition game from Edmonton Flyers 3-1 Wednesday night.

Rookie John Bucyk scored the loan goal for the Western Hockey League club.

Island Puck Opens Oct. 18

Amateur puck chasers are scheduled to open the four-team Vancouver Island Amateur Hockey League in mid-October.

Baseball Scores

NATIONAL LEAGUE	W	L	Pct.	GBL
New York	85	55	.603	
Brooklyn	89	62	.589	6 1/2
Milwaukee	87	64	.576	8 1/2
Cincinnati	74	78	.487	22 1/2
Philadelphia	71	81	.469	24 1/2
St. Louis	67	85	.441	28 1/2
Chicago	62	90	.408	34
Pittsburgh	57	95	.368	41 1/2

It was decided at a league meeting Wednesday night that the league would commence October 18 with two games and a large give-away program at Memorial Arena, starting at 7:30.

C & C Taxi, taking over the Victoria Merchants' franchise, will open the league against Navy, while Victoria V's and Nanaimo clash in the second contest.

Games will be played this season at Nanaimo on Saturday nights, and Monday nights in Victoria. Training here will start either this week-end or early next week.

Winners of the play-offs this season will compete for the Coy Cup, emblematic of the British Columbia intermediate championship, with the cup winner advancing to the Western Canada championships.

Representing the new C & C Taxi entry at the meeting were Jack Derrough and Ron Bremner, last season of Victoria Merchants. Lieut. Cmdr. Frank Saunders and Lieut. Jackson, of Navy, were present, while V's were represented by Dick Irving.

Archie Duggan will be playing coach for Nanaimo this season, taking over from Ed Shamlock, who is now in the United States. Frank Crane will manage the Up-Island team.

A television set and a made-to-measure suit will be among opening night door prizes.

O.C. SOCCER CLUBS WORRIED

Football Raffles Draw Police Warning

LONDON (Reuters)—A new police move to enforce Britain's 20-year-old betting law gave soccer enthusiasts the jitters Wednesday and threatened to cut the purse strings of the country's national sport.

Worried club managers called in lawyers in Cornwall, where police launched their latest drive against the grandstand games of chance that finance hundreds of small amateur and semi-professional soccer teams throughout the country.

Elsewhere club executives watched apprehensively—fearful that the Cornwall move might presage a country-wide anti-gambling campaign like one that drained their treasuries earlier this year.

Target of the Cornwall drive is the popular "penny-on-the-ball" raffles run by small-time teams all over the country.

Raffle tickets are sold for a penny apiece to spectators. The winning ticket-holder usually receives the ball used in the game—through some clubs

throw in additional prizes.

Cornwall—police announced that all local teams are being warned that "if these raffles do not stop we shall have to consider making a prosecution."

Basis for the police action is the Betting and Lotteries Act of 1934, whose vague provisions have already brought grief to clergymen, sports fan clubs, and other backers of informal games of chance. Three priests who thought they were running a legal raffle were fined for violating the act earlier this year, and countless teams and fan clubs had to curtail betting pools based on the number of goals scored during a soccer game.

Others gave up and registered their pools, accepting the heavy tax and legal conditions under which Britain's mammoth soccer betting combines operate. These huge organizations pay off on winners instead of final scores, thus meeting the 1934 law's requirement that skill must be exercised in legal betting.

gets the starting nod, the Giants will present a long-ball threat in left field. Dusty, with a 344 average, has walked 15 home runs and Irvin, although at .269, has 19.

Irvin's performance in the 1951 series, the last one in which the Giants appeared, may prompt Durocher to go along with him. Monte collected 11 hits in that six-game set for a sparkling .458 effort.

Cleveland has the veteran Dale Mitchell and rookie Dave Pope and the Giants Bill Taylor, another first-year player, for reserve.

Rocks Bow to CLA; Play in Miller Bowl

Complete Suspension Threatened

By DENNY BOYD

PETERBOROUGH, Ont.—Victoria Shamrocks will play tonight's fourth game of the Mann Cup Dominion lacrosse series in Miller Bowl.

In bowing to the order of the Canadian Lacrosse Association team manager Ralph Baker said:

"We are agreeing to this demand only because there is a double-barreled shotgun pointing at our heads. One barrel is loaded with suspension for the team... the second barrel is loaded with refusal of transportation home unless we play."

The CLA last night rejected an ultimatum by the Shamrocks that all future games be played in Peterborough Civic Arena.

In their ultimatum the Shamrocks definitely stated they would return home if their conditions were not met by the CLA. This move followed cancellation of Wednesday's scheduled game because of rain and wet grounds.

In a directive presented to the Shamrocks at noon today, the CLA threatened the Shamrocks with an all-encompassing suspension and other penalties.

The text, in part, follows:

"In the event the Shamrock team or officials refuse to complete this series under terms and conditions as outlined by the CLA prior to commencement of the series, each and every player, coach, manager, trainer, executive or club official participating in the 1954 Mann Cup lacrosse championship series will be liable to suspension from lacrosse and subject to additional penalties as provided under the 1954 constitution and articles of the Canadian Lacrosse Association. Such penalty and penalties could include forfeiture of a \$1,000 bond as provided under the above-mentioned constitution."

However, the Shamrocks did receive one concession. It has been stated that all other games in the series after tonight's contest will be played in Peterborough Civic Arena.

These games are scheduled for Friday, Saturday and Monday, if necessary.

Shamrocks are in good physical condition, but mentally they're disgusted.

Concerning tonight's game, at noon today it appeared that weather conditions would be suitable for play. It was clear and sunny this morning.

Peterborough leads the series two games to one.

Bowling Field Day At Beacon Hill

E. Jolly and Mrs. Craig recently won the Halliday Totem Poles mixed doubles lawn bowling competition at Victoria Lawn Bowling Club by defeating C. Hastings and Mrs. Pinkney.

Walter Harlock captured the men's veteran singles event.

Annual club field day will be held on the Beacon Hill Park greens Saturday, with mixed triples and rinks bowling throughout the day, commencing at 10 a.m.

Prizes will be awarded winners and there will also be a tombola offering 20 mystery prizes. A bazaar will also be held for the sale of fruit and vegetables donated by members of the club.

Bowlers from other clubs in Greater Victoria and visiting players are invited to take part.

Fishing Derby

The Langford and Colwood Anglers' Association has scheduled a fishing derby for Saanich Inlet Oct. 2 and 3.

Fishing will commence at 4 p.m. each day, with weigh-in stations at Hall's Boat House and The Anchorage.

12 Victoria Daily Times THURSDAY, SEPT. 23, 1954

DRESSEN PICKS GIANTS TO CAPTURE SERIES

NEW YORK (UP)—Charley Dressen, who failed to win two world series as manager of the Brooklyn Dodgers, today picked his one-time arch rivals, the New York Giants, to win the series this year.

"It's going to take great pitching to beat Cleveland," observed Dressen. "But I think in Sal Maglie, Johnny Antonelli and Ruben Gomez the Giants have three great pitchers who can do it."

Dressen also offered two reasons why the Dodgers didn't win the National League pennant this year: "1, they didn't beat the Giants when they played 'em; 2, their pitching bogged down late in the season."

Dressen Sets Up Shop Awaits Customers

NEW YORK (UP)—Chipper Charley Dressen set up shop in a hotel here today to talk with "three or four different major league clubs" about a job as manager, feeling certain that "this time I'll get the long-term contract the Brooklyn Dodgers wouldn't give me."

Dressen, dropped as pilot by the Dodgers after winning two straight pennants because he demanded a contract for more than one year, arrived by plane from California Wednesday to hold the discussions that will bring him back to the big leagues.

"I don't want to say which club I'm talking with, because it isn't all set yet," Dressen said—but the best indications were that he would land with the Washington Senators or Philadelphia Phillies.

Senators' owner Clark Griffith said Tuesday he was coming to New York soon to "see some people" about hiring a manager for 1955. Griffith wouldn't say definitely that present skipper Bucky Harris is out, but he described a report that Dressen would replace Harris as "a little premature."

"Mr. Griffith is not one of the men I expect to see here," said Dressen, but then he declined to comment on whether he planned to see any other official of the Senators.

About three weeks ago, it seemed that Terry Moore was all set as the Phillies' 1955 pilot—Terry announced he had "reached an agreement" on that.

KARL SPOONER GETS CAMPANELLA'S VOTE

BROOKLYN (AP)—"He throws harder than anybody in the league."

That was catcher Roy Campanella's rave report on 23-year-old Karl Spooner, who set a major league record Wednesday by striking out 15 New York Giants in his major league debut with Brooklyn. The brash rookie shut out the newly-crowned league champions 3-0 on three hits.

The fast-ball southpaw, once a left-handed catcher, came within two of the modern National League record set by Dizzy Dean in 1933 while passing the mark established by Cliff Melton in his first big league game with New York Giants in 1937.

Bays Test Esquimalt On City Soccer Bill

Esquimalt and JBAA will each be looking for their second win this season in the Victoria and District Football League when they clash in a first-division contest Saturday afternoon at 2:30 at Heywood Avenue Park.

Scots Upset Van. City

VANCOUVER (CP)—St. Andrews served notice Wednesday night they will be a contender in the Pacific Coast Soccer League race this season by upsetting the highly favored Vancouver City team 1-0 at Callister Park.

The all-important goal was scored after 35 minutes of play by centre-forward John Swann on a pass from young inside right Bob Homen, just up from juvenile ranks.

Although City stormed the St. Andrews' goal for the balance of the game they could not overcome a staunch defense with Paul Lisowsky playing an outstanding game in goal.

	W	L	D	F	A	Pts.
Victoria City	1	0	0	3	1	2
Esquimalt	1	0	0	3	1	2
Vancouver City	1	1	0	3	1	2
St. Andrews	1	1	0	3	1	2
New Westminster	0	2	0	4	8	0
North Shore	0	0	0	0	0	0

Marciano Out For Three Months

LOS ANGELES (AP)—Rocky Marciano, whose nose was split in his bout with Ezzard Charles, won't be able to box for 2½ or three months, his manager, Al Weill, said Wednesday.

Marciano has had a couple of television offers and "may go to Europe or may make a movie" while he's mending, Weill said.

Coppennoll Top Jockey

WINNIPEG (CP)—Ken Coppennoll has captured riding honors on the prairie racing circuit for the second straight year.

Statistics released by western racing officials show Coppennoll had 71 wins during the 87 days of racing. Dick Griffiths, 18-year-old apprentice from Alberta, ranked second with 59 first-place mounts. Griffiths won the riding crown for the autumn meet at Calgary with 14 victories.

MATTHEWS STARS

English Booters Win, Yugoslavs Nip Wales

LONDON (AP)—England's soccer stars coasted to an easy 6-0 victory over a League of Ireland selection in Dublin Wednesday night and once again 39-year-old Stanley Matthews highlighted the match.

He threw the Irish defense into confusion with tantalizing bursts down the wing and on one occasion ended a fine solo run with a low, angled shot into the net.

Other scorers for the English team were inside left Don Revie, Manchester City, who got three;

centre forward Nat Lofthouse, Bolton Wanderers, and inside right Johnny Haynes, Fulham.

At Cardiff, Wales bowed 3-1 to Yugoslavia, the first time the Welshmen have been defeated at home by a continental side.

Todor Veselinovic scored all the Yugoslav goals.

A crowd of 48,000 saw inside forward Ivor Allchurch put Wales ahead in the 53rd minute.

It was a well-deserved lead for the Welshmen had done most of the attacking with the Yugoslavs rarely looking dangerous.

ISLAND MEET

Stockers Try Again Saturday

The Vancouver Island Track Roadster Association, with a watchful eye on the weather, will again attempt to run the Vancouver Island championship races this Friday night at Western Speedway.

The title meet was rained out last Friday and Saturday nights.

Several Up-Island drivers, as well as local competitors, are expected to show for the event, the final meet of the season. Drivers and mechanics have been working nights this week in attempts to ready their cars for the big race.

Feature race of the night will be a 75-lap main event with all cars entered. Heat races will consist of eight cars and eight laps. Championship race will be started with the fastest cars in front of the field.

Previous to the start of the Main, the most popular driver of the season will be presented with a television set.

Jim Stein, youthful stock driver seriously injured at the speedway while making a practice run, has been released from hospital but is still wearing a cast.

Miner Still Point Leader; Pollard Gains

WINNIPEG (CP)—The Calgary Stampede scored only four points in their single Western Interprovincial Football Union game last week-end, but end Tom Miner from Tulsa University collected them all and retained his lead in the individual scoring race.

Al Pollard, British Columbia Lions' brilliant running and kicking back, hurdled over Stamps' Rupe Andrews to take over third position with 27 bonus edging the figure close to \$95,000. Stengel had managed the Yanks to five pennants and five world series triumphs since 1949 until beaten by Cleveland this year.

Although the Yankees have won more than 100 games this season Stengel left no doubt many changes will be made.

Race Owner Suspended

VANCOUVER (CP)—Race horse owner and trainer John Prybyla of Ohio was suspended Wednesday for 60 days by the board of stewards of Ascot Jockey Club following a saliva test on his horse Come On Steve.

Come On Steve won the fourth race Saturday at Lansdowne Park, defeating Dafty and Tommy's Hope by three lengths. Saliva and urine tests made following the race showed trace of drugs.

The stewards said the suspension, effective immediately, will be filed with the New York Jockey Club.

HALL SIGNED EDMONTON (CP)—Signing of 23-year-old goalie Glen Hall for a third season has been announced by Edmonton Flyers of the Western Hockey League.

Hall hails from Humboldt, Sask. Only other Flyer signed to date is left winger Enio Selisizzi, a 1953-54 all-star.

Maglie Receives Dues

It was a happy occasion in the New York Giants' dressing room last Friday following 7-1 victory over Brooklyn Dodgers which gave Giants 1954 National League pennant and a World Series berth against Cleveland Indians of the American League. Fondly hugging winning pitcher Sal "The Barber" Maglie after the game is Giants' manager Leo Durocher. Giants and Indians are scheduled to open World Series Wednesday at the Polo Grounds in New York.

Case Still Surprised Yanks Lost Pennant

NEW YORK (AP)—Casey Stengel, still "surprised" that he failed to win a sixth straight pennant, Wednesday signed to manage New York Yankees for a fourth two-year term through 1956 and promised to rebuild the club.

The grizzled 64-year-old manager will remain the game's highest paid manager at "exceptional money." Neither Stengel nor the Yankees would nail down the exact figures, but it was believed his basic salary is \$75,000 a year with a profit-sharing pension plan and a bonus edging the figure close to \$95,000. Stengel had managed the Yanks to five pennants and five world series triumphs since 1949 until beaten by Cleveland this year.

Although the Yankees have won more than 100 games this season Stengel left no doubt many changes will be made.

HAVE TO REBUILD

"We've got to fix our hitting and our pitching. When you get a setback you have to rebuild. Anybody interested in any of the New York Yankees can get in touch with Mr. Weiss (general manager George Weiss) by phone. With the exception of Yogi Berra and Mickey Vernon I'd listen to talk about any others."

In the next breath, Stengel was talking about his three solid pitchers — Bob Grim, Whitey Ford and Tommy Byrne: "You can't tell, Harry Byrd might be better next year. You ask me what I am going to do first? Well, you fellows ought to know. You've been writing all year that my pitching was lousy."

Remembering that Stengel said recently he ought to be fired if he didn't win the pennant, a writer asked Casey if he still felt the same way.

"By God, I'm surprised I lost it," he said. "I didn't expect to lose it until we left Cleveland."

RUGBY LEAGUE Yorkshire Cup—Second Round Leeds 21, Wakefield Trinity 17. Lancashire Cup—Second Round Liverpool City 8, Workington 11. RUGBY UNION Glamorgan 3, Middlesex 11.

TO PLAYERS . . .

Series Richest Ever

By HUGH FULLERTON, JR. NEW YORK (AP)—The 1954 world series, to be played in the largest ball parks in the two major league with ticket prices at their highest levels, may be worth more than \$10,000 to each player on the winning team.

It is almost sure to break all previous records for attendance and gate receipts and the estimated financial figures are astronomical.

The series opens next Wednesday in the Polo Grounds, home of the New York Giants, which has a listed seating capacity of 55,000. After two games there, it moves to Cleveland's 73,500-seat Municipal Stadium for the last week-end games. Then, if it lasts longer than five games, it returns to New York.

The Cleveland stadium is where the all-time world series record crowd of 86,288 saw a game between the Indians and the Boston Braves, Oct. 10, 1948. That record may not be broken, but the Indians have had about twice as many ticket applications as they could fill. The Giants also have been swamped, and standing-room-only crowds are assured.

O.C. SOCCER

LONDON (Reuters)—Soccer results in Britain Wednesday: INTERNATIONAL MATCH Wales 1, Yugoslavia 3, at Cardiff. INTER-LEAGUE MATCH Irish League 0, English League 6, played at Dublin.

Junior Soccer Action Opens at Week-End

Lower Island Junior and Juvenile Football Association action commences this week-end with openers scheduled in five divisions.

In a fifth division opener Saturday afternoon at 1, Combines clash with Eagles at Hollywood Park, while Eagles meet Canadian Scottish at Beacon Hill Park in third division action. Canadian Scottish fourth division club tangles with Combines at Lansdowne Park, also at 1, while Sidney takes on Eagles at Sidney at 2.

Sunday, Eagles play ANAF Vets at Victoria West Park in the second division, and first division Eagles clash with Belmont Boys' Club at Beacon Hill Park. In another first division contest, Mic Macs meet 5th B.C. Regt. at Reynolds Road. All Sunday games start at 2.

Queen's Own Wins

TORONTO (BUP)—All doubt was erased Wednesday, Queen's Own unquestionably is the best three-year-old race horse in Canada.

The War Jeep colt from the E. P. Taylor stable conquered King Maple for the fifth time in six races during Wednesday's renewal of the \$5,000 Breeders' Stakes at Woodbine Park, and in handy fashion, too.

Little Soccer Meeting Set

Little Soccer League officials and others interested will hold a meeting Friday night at the Pacific Club at 8.

Last Saturday over 400 youngsters turned out for a practice session and all are reminded to be on hand this Saturday to capture places on park representative teams.

Inter-park competition is expected to commence Oct. 2.

LEGER TO COACH

MONTREAL (CP)—Roger Leger, former defense player with Montreal Canadiens in the National Hockey League, has signed to coach Shawinigan Falls Cataracts in the Quebec Hockey League, it was announced Wednesday.

United Church Hikes Ministers' Salaries

\$100-a-Year Boost Raises Minimum Scale To \$2,800; Increase Not Compulsory

SACKVILLE, N.B. (CP)—The United Church of Canada's 16th general council Wednesday voted its ministers a \$100-a-year pay increase, making the 1955 minimum salary \$2,800.

The 375 lay and clerical delegates attending the 10-day session passed a corollary proposal that the church set \$3,000 a year as the minimum salary for ordained married ministers, a goal "to be reached progressively as early as possible."

The salary resolution was contained in the report of the ministerial salaries sessional committee by a layman, Dr. G. A. Wheable of London, Ont.

The committee report also proposed that automobile allowances for ministers be increased as far as funds provided in churches' budgets permit.

NOT COMPULSORY

The approved pay increase is only a suggestion. Payment of the minimum salary—or any amount over it—isn't compulsory for charges.

The resolution fixing the 1955 minimum salary passed easily (139 to 90) but during the debate lay delegates insisted on the increase and ministers argued against it.

Rev. E. C. Bewell of Gladstone, Man., said he wondered if the time had come "when ministers of the church should say 'We have enough.'" He said he thought the current salary schedule made it "possible to enjoy a good share of modern conveniences, to dress reasonably well and drive a reasonably decent car."

Trouble Sleeping?

Try this drugless way to rest!

If you aren't getting the relaxed, peaceful kind of sleep your body requires, a cup of warm Ovaltine at bedtime may be exactly what you need!

Ovaltine works 3 ways to help you sleep better—

1 Ovaltine helps relieve nervous tension, aids relaxation for complete sleep.

2 Ovaltine is easily digested. It supplies the ideal light nourishment to help prevent digestive unrest.

3 Ovaltine supplies important food elements to help rebuild body cells—so that you can greet the morning with pep.

See what it can do for you—two flavours: ORIGINAL Ovaltine and CHOCOLATE Ovaltine. Get a tin at your food or drug store!

Are you worried about your memory?

Is there a limit to how much you can remember? What facts are hardest to recall; why won't concentrating help? Have men better memories than women? Does memory decline with age?

In October Reader's Digest, you'll find a memo about your memory that reveals some recent findings by psychologists. It may upset your preconceived notions; offers simple rules to help improve your ability to memorize.

Get October Reader's Digest today: 39 articles of lasting interest, condensed from leading magazines, current books.

HOW TO KEEP REGULAR

ON A REDUCING DIET

When you're eating less, and irregularity due to insufficient bulk becomes more of a problem, remember this simple, natural answer.

Many people these days are dieting to lose weight—some for their health's sake, others for appearance's sake. Some are able to stick to their diets until they lose the desired number of pounds. Others run into difficulties and give up after a few days.

One of the most common of these problems is irregularity. A reducing diet usually means a big change in eating habits. You eat less than you normally would. You get less of the natural bulk that normally and naturally aids the rhythmic process of elimination.

When, as a result, there is a slowing up of this natural process, the first thought of some people is to "take a laxative."

They try to substitute unnatural "forcing action" for natural regularity. When the condition persists, many fall into the habit of a daily dose of some product intended only for over-night relief of a temporary stoppage.

BUT THE USE OF DRUG-TYPE LAXATIVES CAN BE AVOIDED ENTIRELY BY SIMPLY EATING ONE-OUNCE (about 1/2 cupful) OF KELLOGG'S ALL-BRAN EVERY MORNING FOR BREAKFAST AND DRINKING PLENTY OF WATER.

This "ounce-of prevention" supplies only 93 calories, but it does supply the necessary bulk your restricted diet lacks.

The natural laxation effect of All-Bran has been demonstrated time and again in clinical studies reported in medical journals. On this basis alone it merits a place in the well-planned reducing diet.

One of the more common complaints of folks who are eating less is a feeling of "emptiness."

However, because All-Bran's soft, smooth bulk absorbs and retains water and liquids, it helps relieve this "empty" feeling.

And you need not add one single extra calorie when you substitute a serving of All-Bran in your breakfast every day. Reducing diet plans usually allow up to one-third of your calorie allowance for this important meal. The typical breakfasts given below show how a serving of All-Bran fits right in to various diet plans.

360-CALORIE BREAKFAST
Eaten as part of a 1200-calorie diet
Tomato Juice (4-oz. glass)
All-Bran (1/2 cup) served with 4 oz. milk, 1 teaspoon sugar
Egg, one, boiled or poached
Toast, one slice
Coffee or tea, plain or with milk

450-CALORIE BREAKFAST
Eaten as part of a 1400-calorie diet
1/2 Grapefruit
All-Bran (1/2 cup) with 4 oz. milk, 1 teaspoon sugar
Slice Toast
Butter (1 teaspoon)
One egg, boiled or poached
Coffee or Tea, plain or with milk

When you consult your doctor about your diet (and every reducing diet should be planned by a doctor), ask him about including Kellogg's All-Bran. And to keep regular be sure to eat All-Bran regularly. It has helped millions. Why not you?

OF LUXURIOUS NEW FALL COATS!

- Reg. \$55 to \$95.00 coats in 17 wonderfully flattering classic styles, designed to make you justly proud of your appearance!
- Twelve precious "famous fabrics" that guarantee genuine coziness you'll enjoy this fall and winter . . . and many more!
- All have Milium lining (in gleaming satin or taffeta) that really insulates against cold or heat without extra bulk and weight.

Special Sale Price

Sizes 10-18

37⁴⁴

Pay Only \$5 now, 5⁹⁸ monthly.

You save \$17.56 to \$22.06

The HBC label in every coat is your guarantee of quality and complete satisfaction.

You'll see these coats modelled right in the department Friday morning to give you an idea of how extremely smart you will look in yours!

You have a wonderful surprise in store for you when you come down to the BAY, Friday and see yourself in one of these outstandingly beautiful creations, designed as if it had you in mind! You'll treasure the touch and the texture of these imported fabrics . . . the slimming chenille stripes, alpaca and wool mixes or the fashion-right nubby tweeds. You'll find in this grand group all the new colors . . . colors full of fashion importance . . . shades to enhance your personality, to set off your natural charm and good looks.

● Look at them carefully . . . inside and out!

As a fashion-wise and thrifty buyer you will appreciate the fine detailing and finishing that has gone into the tailoring of these coats. Examine the expensive buttons and sturdy stitching; see how carefully the seams are finished for months of extra wear. Look at the labels . . . all the proud hallmarks of famous mills renowned the world over for the finest materials. Check the styles against the latest fashion magazines (coats that are twice the price), and you will see why this is such a wonderful opportunity to own a coat that will set you apart as a woman of distinction in any crowd.

● All the coats are lined with

feather-weight Milium, the miracle metal insulated lining that "breathes" for greater warmth in cold weather when it keeps the heat in. When warmer weather comes it deflects the sun's rays and keeps you cooler. These Milium-lined coats can be worn earlier in the fall and later in the spring . . . this means extra value and dollars for you women who live in Victoria's changeable climate. Milium lining comes in glistening satins and taffetas.

The very special price for coats of this outstanding quality is offered to you now because of a very fortunate purchase, by a leading stylist, of hundreds of yards of these precious fabrics at savings of nearly 50%. The HBC chain contracted to have the entire shipment made up into coats of the latest designs, and now we are passing on this double saving to you.

Come down first thing Friday morning and pick out your coat from this prize assortment . . . a coat you'll be proud to wear anywhere, happy with the big savings you have made.

Bears Come Close in Losing Battle

Intrepid hunters, John Devine, left, 3323 Douglas Street, and Bill Lidgate, 82 Hampton Road, shot black bears Wednesday noon at Milne's Landing. Lidgate shot larger bear, then ran out of shells. When Devine aimed at smaller animal his gun jammed, and it chased both men to top of truck before high-powered rifle decided issue. (Times photo by Bill Halkett.)

BETWEEN TIMES

By MONTE ROBERTS

Met a man yesterday who started out for Vancouver Island nine years ago and has just made it. He's F. H. Wood of Winnipeg, one of the delegates at the auto dealer's convention here. He was on his way west after serving in the armed forces during the Second World War. At Winnipeg, he had to change trains. While he was killing time at the station, he fell into conversation with a Winnipeg man. With true prairie hospitality, the man invited Wood home for dinner. Then he suggested Wood stay over another day, and they'd have a bit of a party. So they had the party, and Wood met a lovely young lady, and several months later, still in Winnipeg, they were married, and are in the process of living happily ever after. Still in Winnipeg. (It's okay, Publicity Bureau; Wood says Victoria is the best city in Canada. Next to Winnipeg.)

Overheard conversation apropos of discrimination: "I think it's terrible how intolerant people are. I just can't stand intolerant people. I wouldn't have an intolerant person in my home. I just can't tolerate them."

"TRANSMITTERS URGED FOR RADIO STATIONS" ... news headline. Might improve broadcasting, at that.

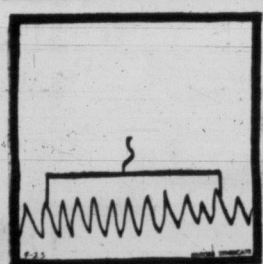

"Wind tunnel tests with stuffed birds indicate they should not be able to fly as well as airplanes, according to the Encyclopedia Britannica."—news item. Personally, I've never seen a stuffed bird that could fly even as well as an unstuffed bird.

TOPICS OF THE TIMES

Clifton H. Davis, secretary-manager of the B.C. Society of Industrial and Cost Accountants, will address members of the Victoria chapter Friday night at 8 in the Duke of Kent Room, Empress Hotel. The meeting will be the first of a fall and winter series. Mr. Davis' topic will be "Your Career as an Industrial and Cost Accountant."

A further remand was granted Jack Lacterman, president Foster Fur Stores, 753 Yates, in city police court today, on a false sales tax returns charge. Magistrate H. C. Hall moved the case ahead to October 20 with consent of Crown counsel, Ronald Grant. Grant told the court early this month the charge involves the sum of \$1,206 allegedly unpaid between September 1 and December 31, 1953.

DROODLES

As you may know, I'm dead set against mice. And I've worked out a scientific Build-It-Yourself Mousetrap you can make right in your own home. Ready? Okay. First, take an old piano crate (upright) that you're not using for anything else. Saw a trapdoor in the top of the crate and a teeny hole (mouse size) in the bottom. Got the holes sawed? Good. Now, you crawl inside the trapdoor with a potato and a female mouse (this trap only catches mice). The boy mouse will come along, notice the female mouse (be sure she's wearing an attractive perfume such as Roquefort No. 5) and enter the piano crate. Immediately—plug up the teeny hole with the potato. Then, it's either you or the mouse! (This trap works best if you know a little about Judo.)

10 Days in Jail For Persistent Auto Offender

A youth who has been three times charged for driving while his license was under suspension, since July, was sentenced today to 10 days in jail. It was the 15th offense charged against Robert Barrett, Prospect Lake, since 1949. City prosecutor Alan Bigelow read the court a record which included seven charges of speeding through 30-mile zones, school and other restricted zones; two of illegal left turns, two failures to stop at stop signs, failure to produce a driver's license and two previous charges of driving while suspended. His license was suspended recently following a conviction for dangerous driving. "He has no regard for the order of this court or the criminal code," the prosecutor said. "I would suggest a jail term." Defense counsel T. P. O'Grady said the accused had driven only one and a half blocks on a minor errand when a man who was expected to drive him did not appear.

SENATOR MCKEEN

'CAN BE DONE' Senator Urges Lower Price On Cars Here

Motor car dealers should equalize costs of their products for purchasers in western Canada, as compared with those in Ontario, Sen. S. S. McKeen told delegates to the Federation of Automobile Dealer Associations of Canada meeting in the Empress Hotel today. "Don't tell me it can't be done," he said. "Other industries have successfully equalized the prices of their products between east and west." "If you think it would be hard on the Ontario auto purchaser to pay \$25 more per car in a price equalization move," he added, "how do you think we in B.C. feel when we have to pay up to \$500 more per car?" He pointed out that purchasers in B.C. pay an extra five per cent on the full price of the car, including a "very large" freight rate differential. "We in B.C. are penalized when we purchase automobiles," he said. "Other industries have successfully equalized the prices of their products between east and west."

Sen. McKeen could see no reason for a gloomy outlook on the part of the dealers. He said that there were 63 persons per car in Canada, as against 35 in the United States. "Statistics show that Canada matches the United States as a highly industrialized nation," he said. "If you dealers feel you have reached the saturation point in sales, perhaps you had better look closely at the comparative statistics."

Thor C. Hansen, art director, public relations department, British American Oil Co. Ltd., Toronto, the man who designed decorations for the company's Toronto building and this year's new Vancouver B.A. office, will address the Victoria section of the Business and Professional Women's Club at a dinner meeting Monday at the clubrooms, 904 Government Street.

\$7,000 Prizes In Big Rodeo Here Next Week

Officials Named For Kinsmen Show

Prizes totaling approximately \$7,000 will be open to an expected 50 competitors to fight for honors in the Vic Van Isle Kinsmen Club rodeo at Langford Sept. 30 to Oct. 2.

Stampede manager Ed Bergeron said today that prize money of \$2,500 put up by the club, plus \$20 entrance fee for each contestant, each of which is expected to enter several events, would put prize money to the high figure.

Mr. Bergeron has received assurance that "at least 15" top notch rodeo performers from the Calgary area will be on hand to vie for honors.

FRIDAY PARADE

King TV of Seattle will televise the colorful parade slated for downtown streets starting at 3:30 p.m. Friday, October 1. The parade will move down Discovery Street to Douglas and down Douglas Street to the Legislative Buildings before dispersal.

Feature attraction of the rodeo will be a horse drill at each performance by the King County Sheriff's Posse of Seattle. Western riding events will be held daily. Together with cash prizes, a trophy donated by the Western Riding Club will go to the aggregate winner.

Western event entries will be received by Aubrey Tremblett (phone 7-2871).

Stampede events will include bronco riding, bareback and with saddle, calf roping, steer decorating, Brahma bull riding and wild horse races.

North American and Canadian championships are at stake. This makes it an event of world interest.

SPECIAL BUSES

Special buses will leave for the rodeo site, Western Speedway at Langford, from the bus depot at 6:45 p.m., September 30, and October 1, and at 1:15 p.m. Saturday afternoon.

Policing of grounds, first aid, ambulance services, adequate lighting and parking facilities have all been thoroughly arranged.

Official grand entry parade opening the three-day stampede will be at 7:30 p.m. Thursday, with Clifford Vandergrift of Turner Valley, Alta., officially opening the big show.

Personnel responsible for the events are Mr. Bergeron; G. I. Edgelow, arena director; E. Hamer, chutes and grounds; H. J. McKay, finance; C. M. Will, concessions; A. Tremblett, western events; George Prescott, announcer; K. Lance and S. Johnson, judges from the U.S. Veterinary surgeon in attendance will be Dr. W. Clayton Newby of Victoria.

\$40,000 Outlay Set for Ancient Chinese Building

Victoria Chinese Benevolent Association has awarded a \$40,000 contract to the building firm of Sifton & Sons, for alteration and renovation to its headquarters building at 336 Cormorant Street.

The architects' firm of Clark and Clayton has planned the changes which will restore to use a building erected about 1885, and which last year was condemned. The existing brick building of two stories will be gutted and entirely new quarters erected within the shell. Six apartment suites on three floors will be provided in the west half of the building. On the street floor, and extending two floors in height in the east half of the building will be a new meeting hall for the Benevolent Association.

The meeting hall will be used not only by the association but by Chinese youth groups requiring a downtown centre for meetings and recreation.

AUTUMN'S HERE —DID ANYONE SEE SUMMER?

In case it wasn't obvious from the atmosphere, autumn started today.

It angled into Victoria at 6:56 a.m., the time the sun's centre crossed the equator to institute the autumnal equinox.

This means today is halved between day and night—the only day in the year to have a perfectly split personality. The sun rose at 7:01 city time and retired tonight at 7:11.

The difference between the times—one might think with the perfect split that the sun would rise and set at exactly equal time—is because time is counted from the upper edge of the sun, which of course rises earlier, rather than from the sun's centre.

In case you want to plan your shopping, winter starts at 1:25 p.m. PST, December 22.

Rocky Point Timber Theft Trial Begins

A resident engineer for Defense Construction Ltd., a Crown corporation, testified at the Assize trial of Philip H. LeBrun, charged with stealing timber at Rocky Point, that he found a group of men loading logs on a truck on the morning of July 3. LeBrun is accused of stealing logs from national defense property between June 3 and July 3, this year.

The engineer, William Allan Townsley, told the court logs had been loaded by a large crane. The incident took place on a contract holiday, he said.

"I was attracted to the site by the noise," he said. "The men working there would not say anything."

Mr. Townsley said that he then ordered the men not to move from where they were. He contacted the RCMP immediately.

The case is continuing before Mr. Justice H. A. Manson. W. H. M. Haldane, QC, is counsel for the defense. Jury foreman is James E. Neely.

FRIDAY MEETINGS

Lions Club—Empress Hotel, noon. Speaker, Bruce Humber.

Capital City Commercial Club—Pacific Club, noon. Speaker, James Munroe.

Toastmasters No. 331—Pacific Club, 6:15 p.m.

Victoria League of Handicapped—Health and Welfare Centre, Cook Street, 7:30 p.m.

View Royal Garden Club—View Royal Community Hall, 8 p.m.

B.C.'S 1955 LICENSE plates, now being made at B.C. Penitentiary, are displayed by Doreen Freer of motor vehicle branch. Figures are black on yellow background. (Times photo.)

PTA Banishes 45 Crime Comics

POLITICALLY

Press Getting Better, Says London Editor

The fact that daily newspapers in Canada, outside Quebec, are no longer owned or controlled by political parties has given rise to greatly improved political reporting on both national and provincial levels, Arthur R. Ford, editor-in-chief and vice-president, London Free Press, said here today.

The veteran 50-year journalist, president of Canadian Press in 1943 and still a director, is in Victoria prior to a directors' meeting next week in Vancouver.

Newspaper men today needed a more thorough background of knowledge than in the past, when because of the "tremendous improvement" and turnover of world news which called for increased understanding.

For this reason he advised persons thinking of a reporter's career to attend universities.

Chancellor of the University of Western Ontario, which has a chair of journalism, he said "no school in the world can turn out a top newspaper man, but he starts his career with an advantage over the man who goes in cold."

Dealers Join In Throughout B.C.

British Columbia is leading other provinces in Canada in discouraging the sale of crime, terror and horror comics, object of a storm of protest in the postwar period from parent-teacher groups and church officials.

This is revealed in the report of the provincial council of the Parent-Teacher Federation in Vancouver which reports that 45 types classed as "undesirable" are not now being sold by dealers in this province.

This will be conveyed to members of the local council at its regular meeting Friday at 8 p.m. in North Ward School.

WONDERFUL SUPPORT

"The books are not actually banned but have been taken off the sale list through the co-operation of agencies and dealers handling them," said Mrs. C. Humphrey Lowden, member of the PTA committee opposing sale of salacious literature.

"We've been getting wonderful co-operation from local agencies and shop operators and it's the same picture in Vancouver and elsewhere in B.C.," said James McPherson, chairman of the Victoria-District PTA Council.

The federation of parent-teachers has spearheaded the drive to have crime, terror and horror books removed from the eyes of youth.

"Our progress in this direction is the best in Canada," officials say.

The parent-teacher body urge adults to be on the alert for other undesirable magazines.

Mrs. Lowden said "We haven't as yet made this a project," but indicated it was a matter being closely watched.

U.S. MOVE PRAISED Mr. McPherson said he was happy to hear of the new plan of the comic book industry in the United States in the formation of the Comic Magazine Association of America. Composed of 27 comic book publishers, the association plans to "clean house" with a code of ethics.

SHOPPING GUIDE

Leather Belts Have Buckles Made of Wrought Iron Swirls

By PENNY SAVER

Wonder just how many things are made of wrought iron? This past year, countless items made of it have appeared on the market, and folks have been buying them up like crazy. It's been almost like a fad... apparently anything made of wrought iron is in style and Canadians have been using it for vases, bookcases, fruit baskets, candlesticks, figurines, door knockers, silhouette wall plaques, ash trays, legs of chairs, tables, couches, stands and oh, I could go on and on.

But this is definitely the first time I've discovered wrought iron made into something one can wear!

I was really quite surprised at the smartness of a wrought iron buckle on a red leather belt. The buckle is made of the wrought iron wire, fairly thick, and it is made into fancy swirls that are truly fascinating.

Not only can you buy this type of buckle on a red leather belt, but also on green, mauve, purple and navy. Price is \$3.95.

Mentioning belts, the matching flannel belt and collar sets come to mind.

Ever seen them? They're the answer to the college girl's dream of accessories. As I said, they are made of flannel; soft, fine-quality flannel, and the collar belt has a self-covered buckle. The Peter Pan collar ties at front with matching rolled ties and together, with a skirt and sweater, the pair look great!

Colors are red, grey, rust and blue, and prices are \$2.95 for the belt and \$1.95 for the collar.

I guess you've seen that type of jewelry that features things like mustard seeds and clover leaves embedded in a plastic ball? Well, now they're making the jewelry containing opal chips. Rather unusual!

Makes a good gift, especially if the recipient has a birthday in October, for it's the stone of that month. Price of a bracelet, necklace, earrings or brooch, is \$1.

Week's Sew Thrifty

Ideal for the chilly days of fall and winter! Make your tot this three-piece separates outfit with a warm weskit—so perky applied! Make it to mix and match with the whirl-away skirt and puff-sleeve blouse.

Pattern 4796: Children's sizes 2, 4, 6, 8, 10. Size 6 blouse, one yard 35-inch fabric; skirt, 1½ yards; weskit, ½ yard.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Print plainly size, name, address, style number.

Send order to Anne Adams, care of The Times, Pattern Dept., 60 Front St. W., Toronto 1-A, Ont.

TODAY'S RECIPE

FLANK STEAK ITALIAN

(Serves Five or Six)

One flank steak (1½ to 2 pounds), 3 cups grated soft bread crumbs, ½ cup grated Parmesan cheese, ½ cup minced parsley, 1 clove garlic, minced, or dash of garlic powder, 6 tablespoons olive oil, salt and pepper to taste, flour, 3 tablespoons bacon drippings or other fat, 2 8-ounce cans tomato sauce, ½ cup Burgundy wine, or ½ cup water.

Have meat dealer score flank steak. Mix bread crumbs, cheese, parsley, garlic, olive oil, salt and pepper; spread mixture evenly over steak. Roll steak as you would a jelly roll (from one wide side to the other), tucking in ends as you roll. Fasten with skewers or string. Roll in flour. Heat bacon drippings in a large, heavy skillet or a roasting pan; brown steak nicely on all sides. Add tomato sauce, wine or water, and salt and pepper to taste.

Cover and simmer gently for about 1½ hours, or until meat is very tender, turning and basting steak frequently. Remove skewers or string and place steak on heated platter. Pour a little gravy over the steak and serve remainder separately.

You can remove the burnt taste from scorched milk by putting the pan in cold water and adding a pinch of salt to the milk.

Vows Exchanged By Victoria Couples

St. Andrew's Cathedral was scene of the recent wedding of Janet Grace Grant and Cecil Claremont Zado. The bride is daughter of Mr. and Mrs. L. L. Grant, 1123 Bay Street, and the groom is son of Mr. and Mrs. H. R. Zado of Creston, B.C. (Photo by Chevron Studio.)

Mr. and Mrs. Gerald Frederick Hallier exchanged wedding vows recently at Oak Bay United Church. The bride is the former Norma Vivian Trimble, daughter of Mr. and Mrs. A. E. Trimble, 756 Falkland Road. Groom is the son of Mr. and Mrs. J. F. Hallier, 1198 Reynolds Road. (Photo by Jus-Rite.)

Winnipeg Vows of Interest Here

Of interest in Victoria is the recent wedding of Doreen Claire Taylor, only daughter of Mr. and Mrs. Stanley W. Taylor, 22 Cambridge Street, Victoria, to John Richard Coppinger, son of Dr. and Mrs. Harry Coppinger of Winnipeg, Man. The ceremony took place in St. Luke's Anglican Church, Winnipeg, with Rev. J. C. Clough officiating.

The bride wore a bouffant gown of tulle over lace with underskirts of net and satin. A Juliet cap of lace over satin trimmed with seed pearls held her fingertip veil and she carried a bouquet of red roses and white sweet peas.

Attending the bride were Mrs. D. E. Kimberley, Vancouver, and Miss Frances Burt, Winnipeg, who were gowned in turquoise and coral nylon tulle, respectively. They carried colonial bouquets of carnations.

James Cook, Winnipeg, was

best man and ushers were Ross Grant, Souris, Man., and Wallace Pile, Winnipeg.

Reception was held in the tea lounge of the Royal Alexander Hotel, where toast to the bride was proposed by Herbert Hunter, Winnipeg.

The newly-wed couple are now living in Winnipeg, Man., after a honeymoon trip to Detroit Lakes, Minn., and Minneapolis. For traveling the bride wore a two-piece dress of soft pink with navy accessories and cream topcoat.

When shower curtains become filmed over, soak them in the tub to loosen the dirt. Then sponge or brush away the dirt, rinse and wipe dry.

"Where Your Fashion Dollar Brings Greater Satisfaction"

WHY GROW OLD?

By JOSEPHINE LOWMAN

There seem to be two schools of thought as to whether one should talk one's troubles out or keep silent. I suppose the middle-of-the-road policy is best. Ideas and words and troubles are impressed upon us by repeating them over and over again. Most persons who speak in public remember what they are going to say by saying it aloud to themselves beforehand. So, difficulties can be magnified out of all proportion by mulling them over in our minds or by talking about them constantly to others.

On the other hand, the inhibited person who keeps all of his troubles to himself for a long period of time, without ever giving verbal expression about them to anyone, is in danger.

There is great relief in being able to bring one's difficulties out into the open when talking to some trusted individual. This provides an emotional purge which is all to the good, unless it becomes habit forming. Often we find the solution to a problem simply by talking out loud to someone we can depend upon for understanding.

Although it would be rather

a lonely project, an individual with real problems could probably solve them for himself if he were able to see himself objectively, to recognize his problem and admit it to himself. However, few people can do this.

Try to look at yourself objectively, talk to someone you can depend on, but do not make a habit of it. If you cannot solve your troubles in this way, then see a well-qualified psychiatrist and talk with him or her.

I don't know, human relations become so muddled at times that a person with any intelligence often wonders whether he is right or wrong. I think people as a whole have a pretty rugged time, and sometimes I feel sorry for human nature, when all of a sudden I remember that people are alive, and even though they may be unhappy, I feel less sorry for them, because being alive is sheer bonus!

Fifty Years Married

A golden wedding anniversary will be celebrated this week by Mr. and Mrs. Percy Thorneycroft, 2750 Scott Street, who plan an "open house" from 2 until 5 and from 7 until 9 p.m. on Saturday, Sept. 25, for their friends, especially former Swift Current residents. They were married at St. Paul's Church, Waudsworth, London, Eng., on Sept. 24, 1904, and came to Canada in 1907. They lived at Swift Current, Sask., for 35 years before coming to Victoria. They have three sons, one in Portland, Ore.; one in Winnipeg, and the other in Vancouver; also seven granddaughters and one grandson.

'Snobbish' Girl Is Probably Just Shy

By ELIZABETH B. HURLOCK, PhD

Some people who seem unfriendly are suffering from extreme shyness. That may be true of the girl whose classmate writes:

(Q)—"There is a girl in my class in high school who has just moved into our block. She comes from a nice family and seems like a very nice girl except that she is so quiet and reserved that it is hard to talk to her. Most of the boys and girls think she is an awful 'goon' and won't have anything to do with her. I try to talk to her but it is almost impossible to get her to say anything. Do you think she feels superior to us or what?"

(A)—I think it is more likely that the girl you describe is suffering more from shyness than from feelings of superiority. She may find it hard to express herself in words, especially when she senses that the other boys and girls do not have too favorable an impression of her.

Since this girl comes from your neighborhood and is in school with you, it is worth your while to try to cultivate her friendship. You may have to take all the initiative at first, until she realizes that you are sincere in your desire to be friends.

It is hard to feel at ease with a person who is held back by feelings of shyness. If you allow yourself to feel ill-at-ease in her presence, you will increase her already existing shyness.

Why not try to convince your friends that this new girl would make a good member of your group and include her in some of the things you do? Once she feels that she is welcome, it should break down her shyness and make it easier to feel at ease with her.

As a special service to our readers, Dr. Hurlock has written a 64-page booklet, "You and Your Problems." For your copy send 15 cents in coin with a self-addressed stamped envelope to this newspaper.

Hurlock

Soft, Easy Lines in Paris Styles

Two designs for fall from Paris demonstrate the pretty, easy lines that characterize many of the fashions here. Slim dress by Jacques Heim (left) is lightweight wool with hipline empha-

sized by scarf ends. Two-piece dress in iron-grey flannel (right) is by Jacques Griffe, has black-and-silver buttons arranged in long, descending V. Sides have very light draping.

WHAT'S EXCLUSIVE?

Our SUITS and COATS of course

... and if you haven't seen them—come in now, you're a pleasant surprise awaiting you. New imported fabrics—new flattering styles—yes in all sizes.

French Ambassador's Wife Does Work With Crippled Children

OTTAWA (CP)—The French embassy is surrounded by spacious lawns and colorful gardens. At the rear are greenhouses with flowers in full bloom all the year round. The ambassador's wife, Mme. Hubert Guerin, oversees the horticultural life of the embassy. A lover of flowers, she not only supervises the gardens but works in them as well.

"If I ever find myself with nothing else to do I am out in the garden at once," she said.

Retreat Day

Baptist women of Victoria will hold a "retreat day" on Friday commencing at 11 a.m. at Emmanuel Baptist Church, Mrs. N. Phillips, first vice-president of the Baptist Women's Missionary Society of British Columbia, will preside and the chapel hour at noon will be conducted by Mrs. W. P. Freeman. Mrs. Gladys Gille will be soloist and Mrs. George Anstey, accompanist. The needs and problems of the work in British Columbia, home mission work in Canada and the work in the foreign field of India, Bolivia and Africa will be discussed, followed by prayer and meditation. The missionary hour will be held at 2 p.m. Participating will be women from First Baptist, Stevenson Memorial, Douglas Street and Emmanuel churches.

with a smile during an interview. "Of course, the results to my hands are rather bad."

She held up her dainty hands for inspection. She has the French mannerism of gesturing with her hands as she speaks.

Mme. Guerin is fond of outdoor life and feels Canadians have a great opportunity to enjoy it. However, fishing is one activity she leaves to her husband.

"I am quite prepared to eat them but catching them is a sport I assuredly do not enjoy," she said.

She became serious as she spoke of one of her main interests, welfare work among crippled children. She is an active member of the French Red Cross which does such work to help crippled children and to prepare them to earn a living, and to prepare them to earn a living.

"I feel that this work for children is most important because older people have really had their time in life, but these poor little ones must be helped."

With sympathetic pride she described playing ping-pong

with a boy who has artificial legs and watching another with no hands use a typewriter with the aid of a stick.

HAS ACTIVE TIME

As a member of the Canadian Red Cross she spends some time each week working in the Ottawa "superfluity" shop. Much of her remaining time is taken up by the many social duties that befall the diplomat, including luncheons, teas and dinner parties at the embassy.

"Then there is also the entertaining of delegations from France," she said. "I do not know what it is about my compatriots, but they seem to be on the sea, in the air or on the rail all the time."

Mme. Guerin herself has had a lot of travel. During her husband's diplomatic careers she has been in Brazil, Holland, England, Finland, Italy and the United States. Since coming to Canada 4½ years ago she has traveled from coast to coast.

She plans a trip to Paris soon to arrange for displays of French clothing and jewelry at an international exhibition in Montreal next fall.

Donation To Memorial For Mrs. Watt

At a meeting of the Colwood Women's Institute a donation was voted to the Mrs. Alfred Watt Memorial, which is to be a picnic nook in the Peace Garden between Canada and the United States.

The late Mrs. Watts, who lived in Victoria for many years, was a founder of the Associated Countrywomen of the World and was instrumental in starting women's institute work in the British Isles.

Mrs. E. Mossop presided and it was reported that a country fair realized a sum of \$225 which will be divided with the community club. Mrs. E. Emery gave a talk on qualities of materials with regard to dry cleaning, as reported by the Canadian Association of Consumers.

Night School Classes on Theory of Play

First of a series of lectures on play techniques and play materials at night school classes in Victoria College will commence Friday evening at 7.30 p.m. with Mrs. Evangeline Winn, Vancouver, the instructor.

These lectures, planned as part of the pre-school teachers' certification courses, are also arranged to interest parents and teachers of children. They will consist of six lessons on the theory of play and six lessons in a workshop where certain materials will be made by all members of the class, including two boats—a liner and a freighter—one tug and barge, a train consisting of four cars, a set of farm animals and a set of zoo animals.

Registrations will be taken Friday evening at the College at 7 p.m. Classes will meet in the Ewing Building.

Next time you wash your shower curtain, don't overlook the hooks and rod. Use a soapy sponge to remove rapidly collecting dirt.

Enjoy sweeter, fresher tasting evaporated milk

Saanich Group Schedules Talk on Library Services

C. K. Morrison, superintendent of the Provincial Government Public Library Commission, has been invited to speak on "Library Services" at a public meeting at the CCF Hall at 8 p.m. on October 1.

The meeting is sponsored by the newly-formed Saanich Voters' Association.

The association's action in inviting Mr. Morrison to speak was prompted by the proposed plan of Saanich Council to submit a "library referendum" to the electorate in the December elections. The referendum will ask ratepayers whether they still

Bug Poison Killer Gets Life Sentence

MATNZ, Germany (AP)—Christa Lehmann, the 31-year-old widow from Worms who popularized use of a bug poison for suicides, was convicted Wednesday of murdering three persons with the poison. The court gave her the maximum sentence—life imprisonment.

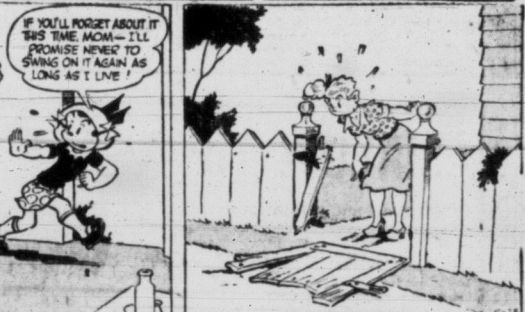

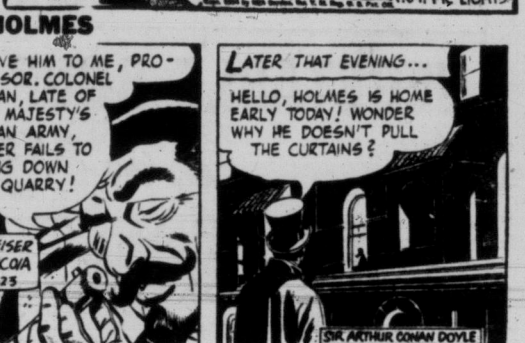

She was arrested last February at the graveside of Anni Hamann, her best friend and last victim. Later Christa confessed to killing her husband and her father-in-law.

The arrest and resulting publicity touched off a wave of bug poison. Sales since have been restricted by the government. She displayed no emotion as the court gave her a life sentence on each of the murder charges. Capital punishment has been abolished in West Germany.

\$26,600 Damages To Victoria Woman

SASKATOON (CP)—A Court of Queen's Bench jury Wednesday found the University of Saskatchewan liable for the death two years ago of Roland Taylor of Victoria who accidentally fell down an empty elevator shaft at the university while being taken on a tour by a faculty member.

'WE'RE GOING TO MAKE THIS WORK'

CHICAGO (AP)—Two years ago—life crumbled for 31-year-old Dr. Thomas Michiels.

He, his wife and Bobby, five, the eldest of their three sons, were stricken with polio just after he had invested all his savings in a dental practice.

In the months that followed, Mrs. Michiels died of the mady; Michiels, paralyzed from the neck down, was told he could never practice again, and that Bobby would be paralyzed from the waist down and would never walk. Bobby now is in a convalescent home.

Michiels has announced that he and Mrs. Rhea Wallace, a 26-year-old widow, will be married Oct. 30. He is starting a dental laboratory even though he has lost the use of his arms and has bought a home with

some \$15,000 raised by residents of suburban Park Ridge and his Loyola University dental school classmates.

Neither Michiels nor Mrs. Wallace—whose first husband died of polio—has doubts.

"I'm sure it will work out," she said. "I really have a lot of confidence in him. We both say that we're going to make this work. And we know it will."

Police Probe Fire At Doukhobor Centre NELSON, B.C. (CP)—RCMP here said Wednesday they are investigating "suspicious" circumstances surrounding a fire that destroyed a general store and sleeping quarters in the Sons of Freedom Doukhobor community of Krestova.

POWERFUL GLADIATORS—William Marshall, left, is Glycon and Victor Mature Demetrius, two of the powerful gladiators who figure in the spectacular Cinemascope drama, "Demetrius and the Gladiators," now at the Royal Theatre. The sequel to "The Robe," filmed in color by Technicolor by Twentieth Century-Fox, also stars Susan Hayward, Michael Rennie, Debra Paget, Anne Bancroft, Jay Robinson and Barry Jones.

Dr. Buchman Heads World Delegates to MRA Assembly

NEW YORK (CP)—Dr. Frank N. B. Buchman, initiator of Moral Re-Armament, arrived Wednesday in the liner Caronia en route from Europe to the world assembly for Moral Re-Armament at Mackinac Island, Mich., Sept. 25.

Fifty-nine representatives from 19 countries also arrived by chartered airliner on their way to the assembly.

The gathering, which will continue through Oct. 5, has been called on the initiative of congressional, industrial and labor leaders in the United States. The theme of the assembly can be summed up in a telegram sent to Dr. Buchman on his birthday by Senator Alexander Wiley (Rep., Wis.) and 94 Republican and Democratic congressmen. It said in part: "You have given a unifying idea to nations that can turn the ideological tide in the world today."

This emphasis on unity is underlined by the group which arrived here Wednesday. It includes members of parliament, business and professional leaders, former Communists and leaders from Africa and Asia.

Funeral Saturday For Well-Known B.C. Surveyor

Major H. Arnold Morley, 66 Moss, 68-year-old former surveyor and veteran of both World Wars, died in Veterans' Hospital Wednesday.

Funeral services have been set for Saturday, at 2 p.m., in Christ Church Cathedral, Dean P. R. Beattie officiating. Arrangements are by Chaplin's and cremation will follow.

Major Morley was a land surveyor by profession and early in his career served on the Alaska Boundary Commission. He knew British Columbia well, and did map work on his surveys.

In 1914 he enlisted with the Canadian Army and served through the First World War. He was wounded and mentioned in dispatches, and was later transferred to headquarters staff under General Arthur Currie to do reconnaissance and map work.

During World War Two, Major Morley went overseas with the Canadian Forestry Corps.

He was a son of pioneer Victorian H. A. S. Morley and a grandson of James Fell, also an early resident of the city. Surviving besides his widow Caroline, at home, is a daughter, Mrs. Pamela Verdier, in Germany with her husband who is serving in the RCAF, and one grandson.

CANADIAN NATIONAL

\$750,000 Navy Laboratory Opens Oct. 8

High RCN, Defense Officials Expected

High Canadian naval and National Defense Research Board officials will be in Victoria Oct. 8 for the opening of the new \$750,000 Pacific Naval Laboratory at HMC Dockyard and to inspect other establishments in the area.

Inspecting party will include Vice-Admiral E. Rollo Mainguy, chief of naval staff; Dr. O. Solandt, six years chairman of the defense board; Vice-Admiral F. T. Mason, engineer-in-chief of the Royal Navy, and others.

"The laboratory is owned and operated by the board. Although it is located on naval property, it is not navy. We do the major portion of research and development for the three armed forces and are, in effect, Canada's fourth service," said John Stuart Johnson, BSc, MBE, 45, superintendent, who was born in Fredericton, N.B., and prior to his present position was director of scientific services, RCN, Ottawa.

The three-story glass-concrete lab houses about 60 professional staff, technicians, stenographers and other personnel.

The new laboratory has been in operation for about a year. Prior to that research board personnel operated in nearby former army huts under cramped conditions.

Mr. Johnson said the laboratory receives excellent co-operation from the navy. The lab emphasizes physics, electronics and mechanical engineering research. "We have to take to sea for other features of this research," said Mr. Johnson, who said HMCS Cedarwood and CNVA Ekholl had been placed at their disposal.

451 Canadians Killed on Highways

OTTAWA (CP)—A total of 451 Canadians met death and another 10,508 were injured in 59,250 highway accidents in the first three months of this year, the bureau of statistics reported today.

The number of accidents in the January-March period for the western provinces, with comparative figures in brackets:

Manitoba, 3,275 (2,943); Saskatchewan, 1,944 (2,235); Alberta, 3,936 (4,289); British Columbia, 4,963 (5,333); Northwest Territories, 86 (99). By provinces, the fatalities numbered: Manitoba, 17 (nine); Saskatchewan, five (11); Alberta, 38 (38); British Columbia, 27 (32).

Builders Sash & Door Ltd.
Specializing in the manufacture and sale
of residential sash and doors, frames,
kitchen cabinets and detail millwork.
When you call Builders Sash you are

of customer satisfaction. First we take the job and measure all the calls or take them from your blue print. All prices are quoted in advance. Then your order is individually tailored to your specification and detail. Only quality material is used and workmanship is guaranteed by skilled craftsmen with many years of apprenticeship training and experience. We also glaze window, make storm sash and can handle those leaded light and zinc band glazing right in our shop. You are invited to visit our factory and showroom anytime.

The new RUSTPROOF METAL WINDOWS. Not a painted job but all windows pickled in hot galvanized zinc which means a lifetime of trouble-free service. Motor operated metal windows free opening and easy-to-attach screens. Windows now supplied with special surround which means easy installation and permits painting or staining of casing to suit exterior of your home. You will find rustproof metal windows cost no more than ordinary painted metal types. Bring us your plan for a free estimate.

Mrs. Loughman's Death Suicide, Jury Rules

WHITE ROCK, B.C. (CP)—A coroner's jury Wednesday night decided that Mrs. Daisy E. Loughman met her death from self-inflicted wounds, but mystery still surrounds the manner in which she took her life. The body of the 65-year-old woman was found by her son, Brian, of Victoria, lying on the floor of her small cottage here August 18.

Two pieces of evidence played a major role in forming the jury's verdict.

SUICIDE NOTE

One was a suicide note written some days before and the other a pair of brown shoes

containing heavy wooden shoe trees.

Both shoes and trees were blood-stained and coated with sand. One of the trees was also coated with blood to which hair was stuck.

Actual cause of death was the hemorrhaging of an artery in the head with a bone fracture a secondary cause.

Dr. Lewis Herberts of New Westminster, who performed the autopsy, testified that Mrs. Loughman could have smashed her face and head against the two objects, or struck herself with them.

CNR Investigates 15-Car Derailment

NORMANTON, Sask. (BUP)—Fifteen cars of a Canadian National Railway freight were derailed near here Wednesday, and the railways started an investigation today to learn the cause of the mishap.

No one was hurt in the derailment, which was reported to have ripped up nearly one mile of track. An east-bound passenger train with 200 persons aboard was halted just west of the scene of the derailment, and other trains were re-routed.

Guild Cast for 'The Little Foxes'

The contentious and cold-blooded Hubbard family, their friends and victims, appear here in a moment of relaxed good humor, but actually their involved relationships, plotting and rivalry in Lillian Hellman's play, "The Little Foxes," provides an evening packed with tense drama. Cast of Victoria

Theatre Guild, which will present the play at Langham Court Theatre for a week, commencing Saturday, includes, left to right: Robin Ritchie, Dick Pugh, Elizabeth Knight, Carol McCormac, Don Ross, Bernice Plumm, Jack Rowe and Frances Howarth. Harold Gelling occupies the wheel chair.

Winnipeg Ballet Appeals For \$50,000 to Keep Going

WINNIPEG (CP)—The Royal Winnipeg Ballet has launched an appeal for \$50,000 to enable the company to continue operations for the 1954-55 season.

Joseph A. Whitmore, former president of the Ballet Festival Association in Toronto, told the Winnipeg directors that "money runs art." He urged the directors to tell of the Winnipeg troupe's plight to service clubs and other organizations.

"Across Canada, the Winnipeg ballet is watched more closely than the people in Winnipeg imagine," Mr. Whitmore said. "I think our objective should be to keep the Winnipeg ballet going."

The company's financial difficulties were caused by a June 8 fire which destroyed all settings, costumes, music and property of the company and by deficits incurred on a tour of eastern Canada and the United States.

Nine of every 10 people among Burma's population of 18,000,000 are Buddhists.

The BOAC chief said the Comets will eventually be returned to service but he indicated it wouldn't be in the immediate future.

He said modifications will be required not only in the Comet I which was involved in the three crashes but in the Comet II and Comet III, later models of the original jet airliner.

Comet Defect Is Known, Says Thomas

LONDON (CP)—The cause of three crashes which resulted in the grounding of the de Havilland jet Comet has been found, Sir Miles Thomas, British Overseas Airways Corporation chairman, said.

Thomas, speaking at a luncheon here Wednesday of the Association of American Correspondents, said the cause, discovered by scientists, will be disclosed when a court of inquiry, appointed by the government, begins its hearings in October.

The BOAC chief said the Comets will eventually be returned to service but he indicated it wouldn't be in the immediate future.

He said modifications will be required not only in the Comet I which was involved in the three crashes but in the Comet II and Comet III, later models of the original jet airliner.

Nevada Gambler's 'Fabulous Sum' Fails To Lure Marilyn Away From Schoolroom

TORONTO (BUP)—A Nevada gambler was reported today to have offered Marilyn Bell "a fabulous sum" to make a series of special appearances at his Las Vegas hotel but the swimming star stayed in her Loreto College classroom studying Latin verbs.

The offer from the unidentified hotelman was wired to Marilyn's managers by Dr. Leonard Arons, a Hollywood physician and swimming enthusiast. Arons said he hoped to fly to Canada shortly for a consultation.

There appeared to be no chance, however, of luring the 16-year-old conqueror of Lake Ontario away from Toronto at least until school ends next June. She returned to her classes Wednesday and said she was going to stay there.

PRIEST WINS AWARD FOR SAVING BOY

PORT ALBERNI (CP)—A Roman Catholic priest at Port Alberni has received the Royal Canadian Humane Society testimonial for bravery in saving the life of a 16-month-old boy.

Rev. A. E. Leonard, of the Holy Family Parish, received the award from Mayor Loran K. Jordon at a city council meeting Tuesday. He was honored for saving Martin Goorts.

LIKE CANADA'S sweetheart, Marilyn Bell, school instead of movie contract is preferred by "Miss Universe of 1954," Miriam Stevenson of Winnsboro, S.C. Rejecting an offer from Hollywood, Miriam will enter Lander College in Greenwood, S.C., this fall.

B.C. Man Found, Didn't Know He Inherited \$28,000

VANCOUVER (CP)—Timothy Walsh, 45-year-old laborer, who disappeared from Vancouver last June apparently unaware he had inherited \$28,000 has been located at Quesnel, B.C., where he is now living.

Walsh's whereabouts were learned when friends in Vancouver were asked to forward his accumulated mail to Quesnel.

Police said Wednesday they had information that Walsh had inherited a "large sum of money" following his father's death last February.

WITH THE FORCES

Cadet Services Powerful Help Against Juvenile Delinquency

By ROY THORSEN

Lieut.-Cmdr. T. Arthur Dando has proof that one of the best ways to combat juvenile delinquency in the youth today is the cadet services of the armed forces.

"Our Rainbow section of the Royal Canadian Sea Cadet Corps is the oldest in Canada. It has a 35-year history and during that whole time there has never been a sea cadet before the civil courts on a delinquency charge," said Lieut.-Cmdr. Dando.

He knew that other cadet units of the service ranks could also testify as to the good records of the 14-to-18-year youths in uniform.

"I think that what leads the cadets onto the right path is our stress on pride in citizenship, our training to bring out qualities of leadership, and the teaching of self-discipline," said the commander.

RANKS ARE OPEN

At the present time the Rainbows have a strength of 114 cadets, with 10 new entries on probationary training, "but right now we are looking for more youth to swell our ranks." If a youth is 14 years old, can measure five feet tall and is in sound health, he has a good chance of becoming a junior sailor.

Fall training is now in full swing. Members of the ship's company are taking various phases of gunnery, boatwork, seamanship, navigation and signalling.

The corps parades twice a week, Tuesday and Friday, from 7.30 to 9.30. Friday evenings are given over to gunnery, boatwork, seamanship, navigation and signalling; plus bandwork. Friday evenings feature steam engineering, advanced navigation and communications for senior ratings. Ordinary seamen and those not taking advanced training usually go to HMCS Naden for basketball or swimming.

SIX-WEEK TRYOUT

Those applying to join should see the first lieutenant any Tuesday or Friday night at the parade headquarters, at the foot of Robert Street. New entries serve a trial period of six weeks before being taken on strength officially.

In joining the cadet corps there is no compulsion to stay on with the navy. The corps throughout Canada are sponsored by the Navy League of Canada. The navy provides

Joint Favorites For Cambridgeshire

LONDON (CP)—Two English-owned horses, Alpenhorn and Turk's Blood, became joint favorites to win the Cambridgeshire Handicap at a betting call-over of Britain's leading bookies Wednesday night. They were quoted at 20 to 1.

Five other thoroughbreds, including former favorite Queen's Bitches and King of the Tudors, were quoted at 20 to 1. The Cambridgeshire, a mile and a furlong race, will be run Oct. 27.

King's Love, a four-year-old owned by Mrs. F. Bullock-Marsden of England, was a 100-to-7 choice to win the Cesarewitch Handicap Oct. 13. The Cesarewitch will be run over 2 1/2 miles.

LONG DIKES

Mississippi River levees, or dikes to prevent overflows, stretch for about 1,800 miles.

OF THE UNIVERSITY OF TORONTO
AND THE UNIVERSITY OF MONTREAL

uniforms and vital equipment, the Navy League being responsible or maintenance of the barracks . . . but it costs \$4,500 a year to operate the unit and for this the Rainbows must turn to the public for financial help.

Lieut.-Cmdr. Dando says that cadets train and then write exams to get a rise in rank and also qualify to attend summer courses in Nova Scotia, Cornwallis and Stadacona. They are seven-week camps and those who pass get a \$100 bonus each.

SCOLARSHIPS OPEN

Various scholarships are also available to Rainbow cadets. These include scholarships to Victoria College and tri-services colleges. If the cadets want to carry on in the navy they are given help by unit officers.

Officers of the unit, all who have been with it for several years, are:

Commander Dando; Lieut. W. W. Ross, executive officer; Sub-Lieut. J. Hill, boatwork; Sub-

Lieut. M. Whitehead, communications; Sub-Lieut. A. Robertson, navigation; Midshipman W. Parsons, gunnery; Mr. A. Brown, rifle range; PO J. Dunick, seamanship; Sub-Lieut. G. Christopher, accountant of fleet; and Sub-Lieut. N. Harlan, clothing officer.

Dismal August Caused Drop In Tourist Figures in B.C.

Wet, muggy weather during August took another large bite out of British Columbia's tourist industry, according to figures released today by Trade Minister Ralph Chetwynd. Mr. Chetwynd said travel vehicle permits issued totaled 51,616 during the month, a decrease of 42 per cent or 2,286 permits from 1953 figures. For the first eight months of the year, travel permits, for stays of longer than 48 hours, have slumped 1.3 per cent. Last year permits totaled 206,157 during the eight-month period; this year 203,548.

4-Point A-Plan Outlined by Dulles

Radiation From Red H-Bomb May Contaminate Canada, U.S.

Site of Bomb Test

Wrangel Island, reported site of Russian H-bomb test, is shown at upper left on map. Close to the Yukon and Alaska, the island is roughly 2,000 air miles from Vancouver Island. Contamination was claimed to have been detected as far away as 1,800 miles from U.S. tests at Bikini.

ABOARD 'LABRADOR'

Canadian Scientists To Check Radiation

OTTAWA (CP)—Canadian scientists aboard the navy patrol vessel Labrador may measure the intensity of radiation from a reported Russian nuclear test in the Bering strait area.

Officials here said the Labrador, now in the vicinity of Bering strait between Alaska and Siberia, has the necessary equipment to determine any sudden increase in radiation.

The 6,500-ton ship, on her maiden cruise from Halifax, is steaming for Esquimalt, B.C., after navigating the Northwest Passage.

\$10 MILLION DAMAGE

4 Die, 23 Hurt In Prison Riot

JEFFERSON CITY, Mo. (UP)—State troopers and police officers massed in battle formation today to put down a night-long prisoner fire-riot at the state penitentiary.

Four convicts were dead, two of them killed by the rioters. Twenty-three were wounded, two critically. Three guards, including one who was held all night as a hostage, were injured and one was stricken with a heart attack.

Eight buildings were burned. Damage to prison property may reach \$10,000,000, officials said.

The end came when 80 state highway patrolmen raced into "B" and "C" hall and fired one shot from a riot gun. Within five minutes the first of the hold-rioters appeared in the doorway, hands clasped behind his head.

They came out by twos and threes to squat in front of officers spaced across the quadrangle under the protection of machine gun emplacements manned by National Guardsmen.

The flames which had lighted the sky through the night had thinned to smoke curling from the skeleton of the prison school building at the backs of the submissive convicts.

Radioactive Rain in Japan Believed From Wrangel Island

TOKYO (Reuters)—Radioactive ashes from a recent Soviet nuclear test in the area of Bering Strait might "strongly affect" northern Canada, Alaska and some parts of the United States, a Japanese weather expert said today.

AFTER 7 MONTHS

Japanese First Victim Of H-Bomb

TOKIO (AP)—A Japanese fisherman doused by a radioactive ash from a United States H-bomb blast March 1 at Bikini died tonight in a Tokyo hospital.

Aikichi Kuboyama, 40, radio operator on the fishing boat Lucky Dragon, is believed to be the world's first death resulting from a hydrogen bomb explosion.

The fisherman had been suffering from jaundice complications brought on by radiation from the Bikini bomb, Japanese doctors said.

His illness and death is a matter of great international significance for Japan. The country has been bitterly critical of the American tests, and is reported to have presented Washington with a bill for several million dollars.

Kuboyama was one of 23 fishermen aboard the Lucky Dragon, which was approximately 80 miles from Bikini when the test bomb was exploded.

The other fishermen also are in hospital, but appear to be recovering.

The United States has offered Japan \$1,000,000 in damages for the 23.

Red Plot Broken Up

TEHRAN, Iran (UP)—Police arrested 44 Communists in the "oil capital" of Abadan today, breaking up a reported Red plot to destroy the world's biggest oil refinery.

Pro-Communists Socialists, headed by Stalin "peace" prize winner Pietro Nenni, introduced in the senate a formal demand for a parliamentary investigation in the senate.

They demanded appointment of a parliamentary commission to inquire into the death of Roman party girl Wilma Montesi, which already has forced the resignation of Scelba's foreign minister, Attilio Piccioni, and has shaken the nation's police force.

FAST TIME IN B.C. ENDS SUNDAY 12.01

Daylight saving time officially ends in British Columbia at one minute past midnight Saturday night.

All clocks in the province will be moved back one hour, with the exception of CPR timepieces, which have remained on standard time during the summer months.

There was some confusion whether the close of daylight saving comes at midnight or at 2 a.m., but the attorney-general's office rules 12.01 Sunday morning.

ACROSS CANADA WITH MONSARRAT

MONTREAL'S DELIGHTS SEEM TO BE ENDLESS

(Tenth of a Series)

From Quebec to Montreal is about 170 miles. It's a pleasant drive, especially when the sun is shining; one never loses sight of the St. Lawrence River for more than a few minutes at a time, and the ships, big and small, swimming alongside the road are a constant reminder that this is one of the world's great waterways. There is a lot of traffic; there is a recurrent rash of cabins, motels, tourist courts, and places to eat-and-run; there are milling masses of children at every corner (this is the province of Quebec).

Then the traffic thickens and coagulates; the buildings grow taller and closer. The main road degenerates into a truly horrible stretch of corrugated paving that leads into Sherbrooke Street; and suddenly you are in the heart of Montreal.

Montreal. Looking back on the places I've passed through during the last 1,500 miles, I can readily pick out a handful of them which seem to stand for ideas, as well as being towns in their own right. St. John's, Newfoundland, seems to typify

Gas Tank Explosion In Germany Kills 22

BITBURG, Germany (AP)—Bitburg mayor's office reported 22 American, French and German officials perished late today when a U.S. Air Force gasoline storage tank exploded while they were inspecting it.

The mayor's office said the dead were members of a 40-man commission which was on top of the tank when it exploded, shooting flames 1,000 feet into the air.

Bitburg is 75 miles west of Mainz, near the Luxembourg border.

The tank was reported still in flames 2½ hours later, with both German firemen and U.S. servicemen battling desperately to keep the fire from spreading to another nearby tank.

FEDERAL BY-ELECTIONS WILL BE HELD NOV. 8

OTTAWA (CP)—The prime minister's office announced today that six federal by-elections will be held Monday, Nov. 8.

The by-elections will fill House of Commons vacancies in: York West, previously held by Rodney Adamson, Progressive Conservative, killed in an air crash at Moose Jaw April 18.

Toronto Trinity, formerly held by Lionel Conacher, Liberal, who died at a Commons softball game May 26.

Stormont, previously held by Transport Minister Chevrier, who now is Canadian president of the St. Lawrence seaway authority.

St. Lawrence-St. George, formerly held by Defense Minister Claxton, who retired to become Canadian general manager of the Metropolitan Life Insurance Company.

Montreal-St. Antoine-Westmont, formerly held by Finance Minister Abbott, now a member of the Supreme Court.

Selkirk, formerly held by Robert J. Wood, who died of a heart attack in Winnipeg Aug. 8.

Shawnigan School 'Unauthorized'?

Government Has 'No Control' Department Spokesmen Indicate

B.C. government has "no control" over private schools, such as the exclusive Shawnigan Lake institution from which Dorothy Holtz Hewitt claims she was banned because of the color of her skin.

High education department officials today told the Times they are not even sure where these schools get their authority to operate.

Because of the complete autonomy of private schools, the B.C. government has made no public statement on the Shawnigan case. But officials at all levels of government privately condemn racial discrimination, either inside or outside of school operations.

Rising public condemnation of the banishment of Science Master John M. Hewitt's bride of four days sparked the Times' queries to Education Minister Williston's aides. He was not available for interview. The answers:

B.C. government isn't likely to be involved in the "Inter-Commonwealth incident" or the Jamaica Legislature's protest to Canadian government over the insult to the beautiful Jamaican, one of whose grandparents was colored.

B.C.'s education department has "no control whatsoever over private schools."

Top officials admit they don't know "where such schools get their authority to operate."

The schools are not inspected by government school inspectors.

No control is exercised over curricula, teaching standards, teachers, or educational requirements. "But the schools usually follow the B.C. curriculum," since pupils must pass government examinations to obtain matriculation certificates for entry into university.

Many teachers in private schools are unqualified, by department of education standards, and "could not obtain B.C. teaching certificates, through lack of educational requirement."

Standards of instruction in many private schools are "below those of public schools... they go in more for sports—boating and other athletics—that public schools haven't time for."

While officials of Shawnigan Lake School today continued their policy of refusing to discuss the now-famous "Hewitt affair," there was stronger indication the incident was touched off by a conversation between the school's headmaster, G. P. Kaye, and science teacher Hewitt.

From information pieced together here it became apparent that Kaye talked to Hewitt, intending to offer some fatherly advice concerning difficulties which might occur as a result of Hewitt's impending marriage to Miss Holtz.

It has been suggested by one in close touch with the Shawnigan situation that Kaye's intention was not to discourage the two from marriage but to assist them in making a success of it.

Significant fact which came to light today was that during the course of the conversation Kaye suggested a mixed marriage in this part of the world would not be as readily accepted as in others, and offered to loan the Hewitts money if they felt they would find things easier in Jamaica.

Mrs. Hewitt, according to statements made by her in Kingston, Jamaica, interpreted this to mean she was not wanted at Shawnigan and that she had to leave.

A correspondent who interviewed her there Wednesday quoted her as saying: "He (Kaye) said there were enough 'narrow-minded, bigoted, prejudiced people in the community to make it unpleasant. He gave me seven days to vacate and offered my husband a loan if necessary to accompany me back to Jamaica. It was a spiteful, hateful thing to do, and I bottled up my anger until I returned home."

There is still no satisfactory explanation for differences between other statements made by Mrs. Hewitt and the one formal statement issued by the school's board of governors.

The board of governors has referred to the incident as a "regrettable misunderstanding."

Mrs. Hewitt stoutly maintains she was told by Kaye she would have to leave the school "before the boys come and see a colored person here." The board of governors has denied this, and contends that Mrs. Hewitt was "treated with the utmost personal courtesy by Mr. Kaye and members of the school staff."

A report that Mrs. Kaye, the headmaster's wife, figured in the controversy, was denied by one of the members of the board of governors.

One other thing established today was that headmaster Kaye did not know Mrs. Hewitt had left this country and returned to Jamaica until last Friday night, when a newspaper called him for comment on her statement, made in Kingston, that she had been given five days' notice to leave the school "before the boys come and see a colored person here."

In the meantime, an airmail letter which the headmaster, Mr. Kaye, has written to Mrs. Hewitt and her father, asking that they come to Shawnigan at the school's expense, is still in transit.

The letter was mailed Tuesday afternoon and may not reach its destination until Saturday.

Both Mrs. Hewitt and her father have said they will wait until they see what is in the letter before they say whether they will make the trip or not.

In the meantime, protests against the school are continuing to mount.

The B.C. Teachers' Federation has offered its full support and assistance to the Hewitts.

Federation president Miss Hilda Cryderman said in a cable to the Jamaican minister of education that discrimination "inherent in the Shawnigan Lake private school incident would not be tolerated in our public school system nor is it typical of private schools."

The cable went on further: "The teachers want it clearly understood by the Canadian public and Jamaicans that the Shawnigan Lake incident is unheard of in Canadian education—private school or public."

A widely-circulated rumor that the Greater Victoria School Board had offered Hewitt a teaching position in Victoria was discounted today by members of the board.

In Vancouver, Arnold Webster, leader of the CCF party in B.C., has criticized the federal government for not immediately protesting the reported color-barring of Mrs. Hewitt.

In a telegram to Ottawa, Mr. Webster said he regretted the government's delay in protesting "the shameful treatment."

1 New A-Agency 2 World Conference 3 Reactor School 4 Medical Parley

U.S. Secretary of State Spells Out Eisenhower 'Atoms for Peace' Plan

UNITED NATIONS, N.Y. (AP)—U.S. State Secretary Dulles today laid before the UN General Assembly a four-point plan to speed the use of atomic energy for peaceful purposes.

The plan called for creation of a new international agency, including members from all parts of the world, to explore and develop atomic energy for peaceful uses.

It also proposed the calling of a world scientific conference to meet in the spring of 1955 under UN auspices to explore the whole subject of atomic development for non-war purposes. At the same time Dulles announced that the United States will open early next year a reactor training school where students from abroad may learn the working principles of atomic energy with special regard for peaceful uses.

In his fourth point, Dulles said the United States will invite a substantial number of medical and surgical experts from abroad to participate in the work of U.S. cancer hospitals in which atomic energy techniques are being used.

No Nation To Be Excluded

Dulles spoke in the opening round of general debate before the UN General Assembly. He announced that the United States will submit a new item for the assembly's agenda to cover the plan he had outlined.

He still expressed regret that Soviet Russia had declined all U.S. efforts to obtain East-West cooperation in the atomic pooling idea, but he said the way was open for the Russians to come into the plan at any time.

"I would like to make perfectly clear," Dulles said, "that our planning excludes no nation from participating in this great venture."

"As our proposals take shape, all nations interested in participating and willing to take on the responsibilities of membership will be welcome to join with us in planning an execution of this program."

"Even though much is denied us by Soviet negotiation, nevertheless much remains that can be done. There is denied the immense relaxation of tension which might have occurred had the Soviet Union been willing to begin to co-operate with other nations in relation to what offers so much to fear and so much to hope."

"Nevertheless, there is much to be accomplished in the way of economic and humanitarian gains. There is no miracle to be wrought overnight. But a program can be made and vitalized to assure that atomic energy can bring to millions a better way of life. To achieve that result is our firm resolve."

Pearson Backs U.S. Plan, Warns Against By-Passing UN

UNITED NATIONS, N.Y. (UP)—Canadian External Affairs Minister Lester B. Pearson today welcomed President Eisenhower's decision to go ahead with his "atoms for peace" plan but cautioned that the United Nations should not be by-passed in setting it up.

Pearson was the first speaker in the assembly's annual general, or policy, debate in which foreign ministers and top diplomats expound their countries' aims in foreign relations.

Dulles, in addition to dealing with the president's proposal for peaceful use of atomic energy, was expected to touch heavily on major aspects of United States foreign policy in a 30-minute speech.

The Canadian foreign minister recalled that Mr. Eisenhower made his proposal for an international atomic energy agency in a speech to the assembly last December.

"The Canadian government has observed with very great regret the discouraging refusal of the Soviet Union to consider the U.S. proposals except on condition which have been already shown to be unacceptable to the great majority of the members of the UN," Pearson said.

"... proposals which are as important as these, all the countries of the world should be developed, in President Eisenhower's words, 'under the aegis of the UN.' This is, of course, implicit in the charter subscribed to by the members of the UN at San Francisco in 1945."

"This is certainly one case in which we should not by-pass the UN... even in the absence of Soviet participation..."

"Canada is in a position to make a useful contribution" to the work of an international atomic agency "and will be glad to do so," Pearson said.

Pearson cautioned that benefits from peaceful uses of atomic energy "will accrue only gradually," but expressed Canada's confidence that establishment of "an international atomic energy agency will prove to be an important step in the liberation of atomic energy from its military bonds."

The Canadian minister warned that if the UN is by-passed too often, "it will fall into disuse and soon into disrepair and neglect and ultimately into uselessness." But he conceded that "to insist on discussing the same question seven times in seven years does not necessarily bring us seven times nearer its solution."

"There is a danger," he said, "in using this assembly and its agenda year after year to apply pressures without regard to circumstances, which many also, later produce equally unconstructive items on our agenda designed to apply counterpressures with equally negative results."

Play or Else—Rocks Told

The hodge-podge that is this year's Mann Cup Dominion lacrosse championship goes again tonight at Peterborough's Miller Bowl.

Victoria Shamrocks, their ultimatum of Wednesday scorned by Canadian Lacrosse Association officials, will meet Peterborough Trailermen in the fourth game of the best-of-seven series.

The CLA neatly mouse-trapped the Shamrock demand that all remaining games be played in Peterborough's Civic Arena, under threat of returning home unless their wishes were complied with, by threatening the Rocks in return.

In brief, CLA officials indicated in a directive issued today that team suspension would follow any game forfeiture and that return transportation home would be withheld. In addition it was pointed out that the Shamrocks faced forfeiture of their \$1,000 bond.

The only other matter definite at the moment is that all succeeding games after tonight's contest will be played at Peterborough's Civic Arena. So the Shamrocks have been advised.

Peterborough leads the series two games to one. Weather conditions at Peterborough today are described as "sunny."

Details of the directive given Shamrock club officials will be found on page 12.

Chou Wants Parley
HONG KONG (Reuters)—Chou En-lai, the Chinese Communist prime minister, called today for another conference on the "Geneva pattern" to try to settle the question of Korea, Peiping radio said.

Mister Dulles figgers 't make 't atom act more peaceful than a lot of 't folks who handle it.

Why do lacrosse teams allus git so cross?

M' Uncle Zeke wears turtle neck sweaters. Sez it's becuz of his collar prejudice.
